

Durable Good Reuse and Recycling Centres

Collection:

- Collection fleet undergoing transformation to 'soft collection' to eliminate compaction
 - 6 new trucks added this week for a total of 15
 - by end of July, will have curbside residential 'soft collection' service City-wide
- During transition, some selective collection will occur
 - i.e., soft collection focus on electronics, mattresses, toilets, BBQ's, dressers, desks, bicycles
 - some waste items will be compacted and disposed (couches) until new markets are developed

Infrastructure:

- Request for Proposal has been issued for 2nd durable good centre at Bermondsey Transfer Station.
 - Will need to go Committee of Adjustment (re: property line issue)
- Centre for internal use only – not for public drop-off
- Dufferin site redevelopment includes public drop-off
