

STAFF REPORT ACTION REQUIRED

Toronto Water 2009 and 2010 Capital Budget Cashflow Reallocations

Date:	April 28, 2010
To:	Budget Committee
From:	General Manager, Toronto Water
Wards:	All
Reference Number:	P:\2010\Cluster B\TW\bc10010

SUMMARY

The purpose of this report is to seek adjustments to cashflow in Toronto Water's approved 2009 Capital Budget to reflect actual spending rates, and to subsequently adjust the resulting carry-forward of unspent funding to Toronto Water's approved 2010 Capital Budget. Further, in accordance with the City's Financial Control Bylaw, this report seeks approval for reallocations in Toronto Water's 2011-2019 Capital Plan to better align with the adjustments proposed in 2010 project cashflows.

RECOMMENDATIONS

The General Manager, Toronto Water, recommends that:

- 1. Council approve a decrease in the Toronto Water total capital project costs of \$50.457 million and budget adjustments to the 2009 Capital Budget in order to offset over-expenditures resulting from acceleration of capital projects and unanticipated increases in the cost of delivering other projects totalling \$134.704 million which includes carry-forward of \$50.767 million to 2010, with offsets from 2009 underspent project of \$72.216 million resulting in a net over-expenditure of \$62.492 million as detailed in Appendix 1.
- 2. Council approve adjustments to the 2010 2019 Toronto Water Approved Capital Budget and Plan in order to offset the 2009 increase in reserve funding requirement of \$62.492 million due to accelerated and overspent 2009 capital projects comprised of: a net decrease in 2012 capital expenditures and reserve funding of \$44.111 million; and, a net decrease in 2013 capital expenditures and reserve funding of \$18.391 million.

- 3. Council approve carry forward funding of \$50.767 million for unspent 2009 capital projects and adjustments to reduce previously approved carry-forward funding for projects with capital spending in excess of what was planned in the fourth quarter of 2009 as detailed in Appendix 1, resulting in no incremental impact on the 2010 Council approved cash flow and reserve funding as detailed in Appendix 1.
- 4. Council approve the revised 2010 to 2019 Capital Budget and Plan for Toronto Water as a result of the adjustments above with a total project cost of \$1.491 billion, and 2010 cash flow of \$720.672 million and future year commitments of \$2.894 billion comprised of: cash flows of \$720.672 million in 2010 inclusive of carry forward funding of \$50.767 million; \$733.718 million in 2011; \$646.949 million in 2012; \$494.757 million in 2013; \$427.179 million in 2014; \$196.988 million in 2015; and \$332.259 in 2016 to 2019.
- 5. Council approve that funding in excess of the \$30 million target in the Rate Stabilization Reserve equal to \$38.133 million be transferred from the Rate Stabilization Reserve to the Water Capital Reserve.
- 6. Council authorize and direct the appropriate staff to take the necessary action to give effect thereof.

Financial Impact

The Deputy City Manager and Chief Financial Officer has reviewed this report and agrees with the financial impact information.

DECISION HISTORY

City Council at its meeting of November 6, 2008 approved Toronto Water's 2009 Capital Budget of \$488.438 million and 2010-2018 Capital Plan. A copy of the corresponding Council Decision Document can be found at:

http://www.toronto.ca/legdocs/mmis/2008/cc/decisions/2008-11-06-cc26-dd.pdf.

Council subsequently approved increases to the approved 2009 Capital Budget to \$507.419 million as shown in the Table 1 below to accommodate: emergency repair work for the Coxwell and Highland Creek Sanitary Trunk Sewers; emergency repair of a collapsed storm sewer along Finch Avenue; and storm sewer and watermain replacement required for Transit City's Sheppard LRT project.

City Council, at its meeting of November 30, 2009 approved Toronto Water's 2010 Capital Budget of \$720.672 million and 2011-2019 Capital Plan. The 2010 Capital Budget included \$50.767 million of unspent cashflow from Toronto Water's approved 2009 Capital Budget.

A copy of the Council Decision Document can be found at: http://www.toronto.ca/legdocs/mmis/2009/cc/decisions/2009-11-30-cc42-dd.htm

The Budget Committee meeting at its meeting of March 29, 2010 received the Preliminary Capital Variance Report for the Year Ended December 31, 2009, from the Deputy City Manager and Chief Financial Officer, wherein the report noted that Toronto Water had spent \$514.409 million or 101.4% of its 2009 Approved Capital Budget of \$507.419 million and that a report would be forthcoming to the next regular Budget Committee meeting seeking approval for the adjustments necessary to accommodate this level of expenditure.

A copy of the Budget Committee Decision Document can be found at: http://www.toronto.ca/legdocs/mmis/2010/bu/decisions/2010-03-29-bu70-dd.htm

ISSUE BACKGROUND

Toronto Water achieved a higher than projected 2009 year end expenditure due largely to unexpected favourable weather conditions in late fall extending to the end of the year, effectively extending the construction season for a number of watermain and sewer projects; and accelerated construction schedules on several large multi-year capital

projects, cost-shared with York Region, namely the: Horgan Water Treatment Plant, Milliken Reservoir and Pumping Station, and Dufferin Reservoir expansion projects.

It is emphasized that in no case did project spending exceed the multi-year project funding approved by Council, rather, 2009 actual expenditures exceeded projected cashflows, effectively decreasing cash flow requirements in future years.

At the same time, Toronto Water incurred a favourable variance in its 2009 Operating Budget, resulting in a deposit of \$22.992 million to the Rate Stabilization Reserve. The Rate Stabilization Reserve was established in 2007 with annual contributions to be made until a balance of \$30.0 million was reached. At present the Reserve balance is \$68.133 million.

COMMENTS

Toronto Water achieved a higher than projected 2009 year end level of expenditure which necessitates a number of budget and technical adjustments to Toronto Water's approved 2009 and 2010 Capital Budgets, to reflect actual 2009 year end expenditures; and adjustments in future year cashflows in Toronto Water's 2011-2019 Capital Plan due to accelerated progress on several large multi-year projects.

As construction progresses through 2010, Toronto Water will be undertaking a further critical review of the cashflow impact of these projects in Toronto Water's 2011-2019 Capital Plan, in preparation for Toronto Water's 2011 Capital Budget Submission. However, at this time a number of adjustments are required to funding, carry-forwards, cashflow and project costs to align with the 2009 actual expenditures, and accommodate changes in the 2010 work program which have arisen since the budget was prepared in the summer of 2009. Approval for these reallocations is sought in accordance in accordance with Section 71-9 D & E of the Financial Control By-Law.

Further, as several of these multi-year projects are co-funded with York Region or supported through draws from Development Charge Reserves, adjustments are also required to accommodate changes in the amounts drawn from these funding sources. The following table summarizes the increased draws required to accommodate the 2009 expenditure rate. In all cases, the increased draws are well within the funding available from those sources and can be further off-set by the transfer of the excess funds from the Rate Stabilization Reserve.

Funding Source	Increased Draw
Toronto Water - Water & Wastewater Capital Reserve Fund	46,002,569
York Region Cost-Sharing	4,898,243
Water and Wastewater Development Charges	11,590,987

The proposed cashflow adjustments and budget reallocations to Toronto Water's 2009 Capital Budget are detailed in Appendix 1; and the proposed cashflow adjustments and budget reallocations to Toronto Water's approved 2010 Capital Budget of \$720.672 million, and 2011-2019 Capital Plan are detailed in Appendix 1.

The proposed reductions to the 2011-2019 Capital Plan are summarized in Table 2.

TABLE 2:	TABLE 2: 2010 RECOMMENDED CAPITAL BUDGET, 2011-2014 RECOMMENDED CAPITAL PLAN (\$ millions)													
	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019

REVISED TOTAL	720.672	791.862	783.584	816.686	873.154	907.109	918.496	913.508	959.178	989.930				

It is noted that Toronto Water's forthcoming 2011 Capital Budget Submission will be under increased pressure, particularly in light of cost escalations associated with a number of key Council approved initiatives including the Lead Water Service Replacement and Basement Flooding Protection Programs. It will be a challenge to develop a 10 year Capital Plan that is able to achieve Council priorities within the established timelines, and within the current funding framework. Toronto Water and Corporate Finance staff will be carrying out a detailed analysis of these pressures and implementation options for consideration through Toronto Water's 2011 Capital Budget Submission.
