Community Development and Recreation Committee

Community User Access to City Run Golf Courses

Dear Community Development and Recreation Committee,

The Parks, Forestry and Recreation Division is fully committed to the provision of fair and equitable access to its facilities to organizations and individuals across Toronto. Its policies recognize that our City is made up of people from diverse communities and underrepresented groups. The City ensures that the users of a community facility will reflect the unique demographics of the relevant community, without discrimination or disadvantage.

In recognition and support of this diversity, I request that the following motion be presented to the Committee for consideration at its next meeting.

“That the General Manager, Parks, Forestry and Recreation be requested to report to the Community Development and Recreation Committee prior to the expiry of the current extension and prior to the issuance of the next RFP on ensuring continued access by community user groups, including seniors, women and youth, to City-run golf courses, and including any other goals or priorities of the City in this regard.”

Thank you very much for your attention to this matter.

Sincerely,

Councillor, Ward 30
Chair, Parks & Environment Committee
