COMMENTS

The property is located in the former City of Etobicoke which is subject to the Etobicoke Zoning Code. Based on the Etobicoke Zoning Code, the property is zoned EC2 (Etobicoke Centre Secondary Plan Area, Bylaw 1088-2002) and is subject to Bylaws 1773 and 9501. The properties to the east, west and south of 5322 Dundas Street W. are also zoned EC2. To the north of 5322 Dundas Street W., there is an existing residential development that is buffered by a fairly large parking area with fencing.

The proposed sign is for the RBC bank building which is located on the same lot as a restaurant (KFC/Taco Bell) and will not impact the residential area. Both buildings and their uses were approved under permits issued in 2008 and 2002 respectively. Immediately to the east there is a radio station that has an identification sign that is approximately the same size as the proposed identification ground sign for the bank. However, the proposed sign and the radio station's sign will be approximately 2 to 3 metres apart.

The proposed sign does not comply with Chapter 215, Signs, of the former City of Etobicoke Municipal Code in the following way:

Sign By-law Section & Requirements	Applicant's Proposal	Required Variance
215-20J(6)(b) A stand-alone bank is permitted one (1) business identification ground sign.	Proposal is for a business identification ground sign for a bank on a site that is also occupied by a restaurant with an identification sign.	To permit a second identification ground sign on the same lot that will be for a bank that is not the only building on the same lot.

The proposed sign will be erected in a commercial zone and will be approximately 2 to 3 metres from the illuminated ground sign on the adjacent property which will obscure the advertising on the existing sign. This also means there will be 3 illuminated ground signs within a distance of approximately 65 metres.

Staff recommend not approving the application. The variances are not minor and are not within the general intent and purpose of the Municipal Code.
