

August 17, 2010

Frances Nunziata Chair  
Etobicoke York Community Council

Subject: Request from Mimico Train Station Committee

**SUMMARY:**

A request has been received from a Mimico Train Station Committee to allow the water and sewage hook up of the historical building currently owned by the City of Toronto but under restoration by a local organization the Mimico Train Station Committee.

The Historic Train Station is being restored for the community, and is located in Coronation Park West in Ward 6.

The Committee has been advised that they must pay for the cost of the water and sewage hook up to City of Toronto systems.

As the building is owned by the City of Toronto and will be available for community use, the committee is requesting that the fees be waived, or absorbed by the City of Toronto.

**RECOMMENDATION:**

Etobicoke York Community Council requests City Council to waive fees for the water and sewage hook up for the Mimico Train Station.

Mark Grimes  
Councillor, Ward 6 Etobicoke Lakeshore
