Biosolids Master Plan Update

City Council Decision

City Council on November 30, December 1, 2, 4 and 7, 2009, adopted the following:

1. City Council approve the Biosolids Master Plan Update Environmental Assessment in regards to the Ashbridges Bay, Humber and North Toronto Treatment Plant and direct staff to implement the biosolids management strategies contained in the Master Plan for each of the three wastewater treatment plants at Ashbridges Bay, Humber and North Toronto.
2. City Council authorize and direct the General Manager, Toronto Water, to procure additional beneficial use and landfill disposal services for biosolids from the Ashbridges Bay Treatment Plant (ABTP) on a sole source basis and on such terms and conditions as he considers appropriate until such time as staff are able to secure competitively bid long term contracts and services to further beneficially use biosolids from ABTP as outlined in the Biosolids Master Plan Update.
3. City Council authorize and direct the General Manager, Toronto Water, to execute one or more contracts and/or agreements on terms and conditions satisfactory to him and in a form satisfactory to the City Solicitor.
4. City Council authorize and direct staff to immediately relinquish the Ontario Ministry of Environment Certificate of Approval for incinerators at the Ashbridges Bay Treatment Plant.
5. City Council approve the beneficial use options for the Ashbridges Bay Treatment Plant biosolids contained in the Biosolids Master Plan which do not include Thermal Technologies.
6. City Council request that when the recommendations contained in the report (October 19, 2009) from the General Manager, Toronto Water, regarding the Highland Creek Treatment Plant are before the January 5, 2010, meeting of the Public Works and

Infrastructure Committee, the Committee again defer the matter until its February 2, 2010 meeting.

7. City Council request the Public Works and Infrastructure Committee to consider the following recommendation at such time as it considers the above-noted report (October 19, 2009) from the General Manager, Toronto Water:

“That the General Manager, Toronto Water, be directed to accelerate the implementation of the biosolids management strategies for the Highland Creek as detailed in the Biosolids Master Plan in order to realize capital and operating cost savings of approximately \$15 million over the ten year period (2009 - 2019), and report to the Public Works and Infrastructure Committee at its meeting on February 2, 2010.”

8. City Council forward this report to the Board of Health for information.

Committee Recommendations

The Public Works and Infrastructure Committee recommends that:

1. City Council approve the Biosolids Master Plan Update Environmental Assessment in regards to the Ashbridges Bay, Humber and North Toronto Treatment Plant and direct staff to implement the biosolids management strategies contained in the Master Plan for each of the three wastewater treatment plants at Ashbridges Bay, Humber and North Toronto.
2. City Council authorize and direct the General Manager, Toronto Water, to procure additional beneficial use and landfill disposal services for biosolids from the Ashbridges Bay Treatment Plant (ABTP) on a sole source basis and on such terms and conditions as he considers appropriate until such time as staff are able to secure competitively bid long term contracts and services to further beneficially use biosolids from ABTP as outlined in the Biosolids Master Plan Update.
3. City Council authorize and direct the General Manager, Toronto Water, to execute one or more contracts and/or agreements on terms and conditions satisfactory to him and in a form satisfactory to the City Solicitor.
4. City Council authorize and direct staff to immediately relinquish the Ontario Ministry of Environment Certificate of Approval for incinerators at the Ashbridges Bay Treatment Plant.
5. City Council approve the beneficial use options for the Ashbridges Bay Treatment Plant biosolids contained in the Biosolids Master Plan which do not include Thermal Technologies.
6. City Council forward this report to the Board of Health for information.

Committee Decision Advice and Other Information

The Public Works and Infrastructure Committee:

1. deferred the recommendations in the report (October 19, 2009) from the General Manager, Toronto Water, regarding the Highland Creek Treatment Plant until the January 5, 2010, meeting of the Public Works and Infrastructure Committee; and
2. requested the General Manager, Toronto Water, to submit a report to Public Works and Infrastructure Committee for its meeting on January 5, 2010, on the Biosolids Master Plan Update relating to the Highland Creek Treatment Plant.

Origin

(October 19, 2009) Report from General Manager, Toronto Water

Summary

This report summarizes the findings contained in the Biosolids Master Plan (BMP) Update and recommends formal approval of the Plan. The purpose of the BMP Update is to plan for the future management of biosolids from each of the City's four wastewater treatment plants in a manner that is sustainable, reliable, environmentally sound, cost effective and flexible. Biosolids are the fully treated organic material generated from the biological treatment of wastewater solids.

The BMP Update was undertaken as a Class Environmental Assessment to fulfill the requirements of Phase 1 and 2 of the Municipal Engineers Association Class Environmental Assessment Master Planning process. The BMP Update was released for a 30 day public review beginning on October 1, 2009 and ending on October 30, 2009.
