WHO WE ARE

The Scarborough Hospital (TSH), Canada's largest urban community hospital, delivers innovative, high quality patient care, advocates for our community's health and wellness issues, and is a leader in research, teaching and learning. Serving a community of close to one million people or approximately one-third of the GTA, TSH has 3,700 staff, more than 700 physicians, and 800 volunteers.

WHAT WE DO

The Scarborough Hospital provides a diverse range of services across eight patient care areas:

- Cardio-Respiratory & Critical Care
- Medicine & Specialized Geriatrics
- Emergency & Urgent Care
- Family Medicine & Community Services
- Maternal Newborn & Child Care Medicine
- Mental Health Services
- Nephrology & Dialysis
- Surgery, Orthopedics & Rehabilitation

In addition to providing a range of community-based health care services, TSH is a regional centre of excellence for dialysis, family maternity services, vascular surgery, pacemakers, corneal implants, sexual assault care and community-based mental health and crisis programs. TSH serves a diverse community and last year provided services in 48 different languages. TSH is focused on building capacity, ensuring safety, creating a positive experience for all and providing system leadership.
