We understand that the next appearance in the above noted matter is Monday February 8, 2010 at 9:30 am. We have ascertained that the Court Decision that we are awaiting pertaining to the issue of the hand railings and the retroactivity of the Statute will be handed down on February 18, 2010. In addition, we have commissioned an Engineers Report which we expect will confirm the safety of the hand railings in their present configurations. Therefore, on behalf of our client we are requesting a further adjournment to next months meeting, or to the next meeting held by the Committee. Would you kindly advise if this is acceptable to you and whether our attendance is required on Monday next.

Thank you
Yours truly

Stone & Wenus

John S. Wenus
