Amaz Property Management
555 Brimorton Drive
Toronto, Ontario
M1H 2E9

Attention: Mr. Alim Premji

Regarding: 555 Brimorton Drive, Toronto
Guards And Railings

Dear Alim:

Further to our telephone conversation, this is to confirm that you have retained our firm to conduct a study of your existing guards and railings throughout the property, including the emergency exit stairwells. The purpose of our study is to review the existing design and construction of the guards and railings and compare our findings to the requirements outlined in the Toronto Municipal Code – Property Standards. At the conclusion of our study, we will prepare a report identifying our findings and define a course of action. We will complete our study and finalize a draft of our report within the following 2 to 3 months. We trust this is acceptable.

Yours truly,

Giancarlo Lancia
