

**Management's Response to the Auditor General's Review of  
The Deep Lake Water Cooling Project – Total City Costs and Benefits Need to Be Reported**

<u>Rec No</u>	<u>Recommendation</u>	Agree (X)	Disagree (X)	<u>Management Comments:</u> <i>(Comments are required only for recommendations where there is disagreement.)</i>	<u>Action Plan/ Time Frame</u>
1.	City Council request the General Manager Toronto Water to report to Council all operating and capital costs incurred by Toronto Water on the Deep Lake Water Cooling Project along with the estimated benefits.	X			TW will report on the Operating and Capital costs associated with the DLWC project and the estimated benefits in Q1 of 2012
2.	City Council request the Executive Director, Facilities Management, to conduct an evaluation of City facilities to determine whether or not financial and environmental benefits from deep lake cooling have been achieved.	X			A detailed evaluation of the City Facilities connected deep lake water cooling system to determine the financial and environmental benefits will be completed in 2012
