### **Committee Decision Advice and Other Information**

The Manager, Traffic Planning/Right-of-Way Management, Etobicoke York District, gave a presentation to the Public Works and Infrastructure Committee on this item.

The Public Works and Infrastructure Committee held a public meeting on November 3, 2011, in accordance with the City of Toronto Act, 2006, and notice was posted on the City's website for a minimum of 5 days. Two persons addressed the Public Works and Infrastructure Committee.

### **Origin**

(October 20, 2011) Report from the General Manager, Transportation Services

### **Summary**

Transportation Services has completed a public and stakeholder consultation, as directed by Council, to gather feedback on proposed substantial amendments to Municipal Code Chapter 743 (“Use of Streets and Sidewalks”), which in effect form a new “Streets By-law,” to consolidate and simplify the management and administration of a comprehensive range of activities and uses in Toronto’s 5,600 kilometres of public rights-of-way.

The draft amendments and supporting documentation were posted on the City’s website for public review, and staff presented the proposed amendments to representatives of the City’s Business Improvement and Resident Associations, as well as interested Councillors. Public open houses were held in each Community Council district in September, 2011.

The attached by-law represents the results of this consultation. The original draft document presented to Public Works and Infrastructure Committee at its June 23, 2011, meeting has been

revised in response to public comment, with the recommended draft by-law presented here for approval.

Significant revisions resulting from the consultation program include: deleting the clause prohibiting camping, dwelling or lodging on a street; increasing the number of permitted encroachments for residents and Business Improvement Associations (BIA); requiring street work permit holders to provide BIAs with 48 hours advance notice before conducting their work; applying a survey and inspection fee to locations that do not comply with an initial notice from a By-law Officer; and, increasing the appeal period from ten working days to fifteen business days.

By working with the public and stakeholders, focusing on prevention by encouraging compliance with municipal regulations, the new provisions will promote efficiencies by reducing reliance on enforcement “after the fact.” Common municipal regulations governing the use of public rights-of-way will now apply City-wide, with application consistent throughout each operating District.

This report is scheduled as a deputation item. Public notice has been given in the manner prescribed by Chapter 162, Notice, Public, of the City of Toronto Municipal Code.
