

STAFF REPORT ACTION REQUIRED

2013 Property Tax Rates and Related Matters

Date:	January 4, 2013
To:	Budget Committee
From:	Acting Deputy City Manager and Chief Financial Officer
Wards:	All Wards
Reference Number:	P:\2013\Internal Services\Cf\Bc13001cf (AFS #16810)

SUMMARY

This report presents the 2013 municipal tax ratios and 2013 municipal tax rates together with the Current Value Assessment (CVA) changes for 2013. Specifically, the tax ratios and rates recommended in this report provide for:

- continuation of the City's Enhancing Toronto's Business Climate strategy in lowering business tax rates;
- continued property tax assistance for low-income seniors and low-income disabled persons; and,
- continued support to encourage the development of purpose-built rental properties.

RECOMMENDATIONS

The Acting Deputy City Manager and Chief Financial Officer recommends that:

1. Council adopt the 2013 tax ratios shown in Column II for each of the property classes set out below in Column I, which together with the graduated tax rate for the Residual Commercial Class as recommended in Recommendation 2 and the 2013 budgetary levy increase of 2.0% on the residential, new multi-residential, farmland, managed forest and pipeline property classes and 0.667% on the commercial, industrial, multi-residential property classes, will result in the 2013 ending tax ratios shown in Column III.

Column I	Column II	Column III
Property Class	2013 Recommended Tax Ratios(before Graduated Tax Rates)	2013 Ending Ratios after Graduated Tax Rates and Budgetary Levy Increase)
Residential	1.000000	1.000000
Multi-Residential	3.223500	3.181363
New Multi-Residential	1.000000	1.000000
Commercial General - Unbanded	3.159772	3.118468
Residual Commercial – Lowest Band	2.997000	2.757980
Residual Commercial – Highest Band	2.997000	3.118468
Industrial	3.159772	3.118468
Pipeline	1.923564	1.923564
Farmlands	0.250000	0.250000
Managed Forests	0.250000	0.250000

2. Council continue the previous adoption of two bands of assessment of property in the Residual Commercial property class, for the purposes of facilitating graduated tax rates for the Residual Commercial property class in 2013 as set out in the Enhancing Toronto's Business Climate initiative, and setting such bands of assessment for each band shown in Column II at the amount shown in Column III, and setting the ratio of the tax rates for each band in relation to each other at the ratio shown in Column IV.

Column I	Column II	Column III	Column IV
Property Class	Bands	Portion of Assessment	Ratio of Tax Rate to Each Other
Residual Commercial	Lowest Band	Less than or equal to \$1,000,000	0.88440225
Residual Commercial	Highest Band	Greater than \$1,000,000	1.00000000

3. Council adopt the tax rates set out below in Column V, which rates will raise a local municipal general tax levy for 2013 of \$3,712,887,426.

Column I	Column II	Column III	Column IV	Column V
Property Class	2013 Tax Rate for Base General Local Municipal Levy Before Graduated Tax rates	2013 Tax Rate for General Local Municipal Levy After Graduated Tax Rates	2013 Additional Tax Rate to Fund Budgetary Levy Increase	2013 Ending Municipal Tax Rate (excluding Charity rebates)
Residential	0.5232993%	0.5232993%	0.0104660%	0.5337653%
Multi-Residential	1.6868554%	1.6868554%	0.0112457%	1.6981011%
New Multi-Residential	0.5232993%	0.5232993%	0.0104660%	0.5337653%
Commercial	1.6535066%	1.6535066%	0.0110234%	1.6645300%

Column I	Column II	Column III	Column IV	Column V
Property Class	2013 Tax Rate for Base General Local Municipal Levy Before Graduated Tax rates	2013 Tax Rate for General Local Municipal Levy After Graduated Tax Rates	2013 Additional Tax Rate to Fund Budgetary Levy Increase	2013 Ending Municipal Tax Rate (excluding Charity rebates)
Residual Commercial – Band 1	1.5683281%	1.4623650%	0.0097491%	1.4721141%
Residual Commercial – Band 2	1.5683281%	1.6535066%	0.0110234%	1.6645300%
Industrial	1.6535066%	1.6535066%	0.0110234%	1.6645300%
Pipelines	1.0065996%	1.0065996%	0.0201320%	1.0267316%
Farmlands	0.1308248%	0.1308248%	0.0026165%	0.1334413%
Managed Forests	0.1308248%	0.1308248%	0.0026165%	0.1334413%

4. Council determine that the 2013 Non-Program Tax Account for Rebates to Charities in the Commercial and Industrial Property Classes be set in the amount of \$5,814,519 to fund the mandatory 2013 property tax rebates to registered charities in the commercial and industrial property classes, which provision is to be funded, for a net impact on the 2013 operating budget of zero, by the following:

- a. The additional tax rates set out below in Column III be levied as part of the general local municipal levy on the commercial classes set out in Column I and Column II to raise a further additional local municipal tax levy of \$5,683,066 to fund the total estimated rebates to registered charities for properties in the commercial classes in 2013.

Column I	Column II	Column III
Commercial Property Classes	Bands	Additional Tax Rate to Fund Rebates to Eligible Charities
Commercial General	Unbanded	0.0071112%
Residual Commercial	Lowest Band	0.0062891%
Residual Commercial	Highest Band	0.0071112%

- b. An additional tax rate of 0.0017158% be levied as part of the general local municipal levy on the industrial class to raise a further additional local municipal tax levy of \$131,453 to fund the total estimated rebates to registered charities for properties in the industrial class in 2013.

5. Council determine that for the purposes of the City’s Tax Increase Cancellation Program, the household assessed value criteria for eligibility be increased to be equal to or less than \$650,000 (from \$575,000) for the 2013 and 2014 tax years, and to be equal to or less than \$715,000 for the 2015 and 2016 tax years.

6. Council determine that for the purposes of the Capping and Clawback of taxes in the commercial, industrial and multi-residential property classes:

- a. Council adopt the continued limiting of reassessment-related tax increases for the commercial, industrial, and multi-residential property classes at a cap of 5% of the preceding year's current value assessment taxes for the 2013 taxation year.
 - b. Council adopt the continued removal of properties from the capping and clawback system once they have reached their full CVA-level of taxation for the 2013 tax year.
7. Council direct the Deputy City Manager and Chief Financial Officer to report directly to Council at its meeting scheduled for April 3 and 4, 2013, on the 2013 tax rates for school purposes, and the 2013 percentage of the tax decreases required to recover the revenues foregone as a result of the cap limit on properties in the commercial, industrial and multi-residential property classes (the 2013 'clawback' rates).
8. Council determine that for the purposes of the comparable property tax treatment for new construction in the commercial, industrial and multi-residential classes the minimum property taxes for new construction be set at 100% of the full uncapped CVA level of taxes for 2013 and future years.
9. Council determine that:
 - a. the instalment dates for the 2013 final tax bills be set as follows:
 - i) The regular instalment dates be the first business days of July, August and September.
 - ii) For taxpayers who are enrolled in the monthly pre-authorized property tax payment program, the instalment dates be the 15th, or first business day thereafter, of each of the months of July to December.
 - iii) For taxpayers who are enrolled in the two installment program, the final instalment date be July 2, 2013.
 - b. The collection of taxes for 2013, other than those levied under By-law No. 1633-2012 (the interim levy by-law) be authorized, and,
 - c. A penalty charge for non-payment of taxes of 1.25 percent of taxes due and unpaid be added on the first day of default, and interest be charged at a rate of 1.25 percent per month on all outstanding taxes accruing from the first day of default.
10. The appropriate officials be authorized to take the necessary action to give effect thereto and authority be granted for the introduction of the necessary bills in Council.

Implementation Points

In accordance with various legislative requirements, Council must annually adopt the following three by-laws: (i) the municipal levy by-law; (ii) the education levy by-law; and (iii) the clawback rate by-law. These three by-laws are required to enable the City to issue the final property tax bills for the year, for both municipal and school purposes.

Council will be considering the City's 2013 Operating Budget at a Special Meeting of Council scheduled to be held on January 15, 16, and 17, 2013. Upon conclusion of that meeting and adoption of the City's 2013 Operating Budget, the City Solicitor will introduce a Bill in Council establishing the City's 2013 Tax Ratios, Tax Rates and Levy for City purposes. This report presents, on a preliminary basis, the City's 2013 Tax Ratios, Tax Rates and Levy for municipal purposes based on a 2.00% residential and 0.667% non-residential tax rate increase, and if any amendments are necessary, they will be made directly in the Bill introduced in Council.

Staff anticipate reporting to Council on the 2013 tax rates for school purposes and the 2013 clawback rates, as described in this report, at its meeting in April 2013.

Financial impact

The 2013 Operating Budget recommended by Budget Committee is predicated on a 1.295% property tax levy increase (\$47.46 million). Council's adopted policy is that tax increases on the non-residential property classes be limited to one-third of the increase imposed on the residential class until non-residential tax rates reach the target of 2.5-times the residential rate not later than 2020. As such, adoption of the 2013 Operating Budget will necessitate a 2.00% tax rate increase on the residential property class, and a 0.667% tax rate increase on the non-residential classes, which will raise the required amount of \$47.46 million (\$34.40 million from residential, and \$13.06 million from non-residential). A 2.0% residential tax rate increase translates to an increase of \$49.65 for the average residential household assessed at \$474,368 in 2013, and the final 2013 municipal taxes on such a home will be \$2,532.

Current value reassessment, however, may cause tax increases and tax decreases related to a property's relative change in value between 2012 and 2013, and Council's decisions on reducing tax ratios. These CVA-related impacts are outlined in the body of this report.

COMMENTS

Assessment Cycle

The assessment of all property in Ontario is carried out by the Municipal Property Assessment Corporation (MPAC), under the Province's *Assessment Act*. For the tax years 2013 through to 2016 inclusive, properties have been reassessed to reflect a January 1, 2012 valuation date. Reassessments are conducted on a four-year cycle with Current Value Assessment (CVA) increases being phased-in between the four-year periods. As such, increases arising from the 2013 reassessment are being phased-in at incremental increases of one-quarter of the total increase, spread over the 2013 to 2016 taxation years. Any CVA decreases are not subject to phase-in and will be applied immediately.

The next assessment update will take place for taxation years 2017-2020, with the valuation basis being January 1, 2016. Chart 1 below provides the valuation dates used for each taxation year from 1998 through 2016.

Chart 1: Assessment Cycle

Taxation Year	Valuation Date	
1998, 1999, 2000	June 30, 1996	
2001, 2002	June 30, 1999	
2003	June 30, 2001	
2004, 2005	June 30, 2003	
2006, 2007, 2008	January 1, 2005	
2009, 2010, 2011, 2012	January 1, 2008	
2013, 2014, 2015, 2016	January 1, 2012	✓
2017, 2018, 2019, 2020	January 1, 2016	

Increases phased in over 4 years

2013 Assessment Changes

Reassessment is revenue-neutral to the City, meaning that increases in the values of properties do not provide the City with additional property tax revenues. Legislation requires municipalities to reduce their tax rates in proportion to the increase in total assessed value arising from reassessment.

The 2013 phased-in CVA for the residential property class has appreciated on average by 5.67% as compared to the 2012 phased-in CVA. The average assessed value for all residential property types for 2013 taxation is \$474,368, as compared to \$448,917 for 2012 taxation purposes. Chart 2 summarizes the average CVA values for single family detached property types and all residential property types over the 4-year CVA phase-in cycle.

Chart 2 - Average CVA Values for Single Family Detached Homes and All Residential Property Types

	2013 Phased-in CVA	2014 Phased-in CVA	2015 Phased-in CVA	2016 Full CVA (Jan. 01/12 Valuation Basis)
All Residential Properties (includes semi's, town homes and condo's)	474,368	500,346	526,327	552,307
Single Family Detached Home	614,869	646,852	678,836	711,542

In reassessments, tax shifts between properties within a property class will occur – a property which appreciates at a rate greater than the class average will experience an increase in tax burden, and conversely, a property which appreciates at a rate less than the class average will experience a decrease in tax burden.

In a similar way, during reassessments, tax shifts between property classes will also occur – property classes that appreciate at a rate greater than the City-wide average will experience an increase in tax burden, and conversely, property classes that appreciate at a rate less than the City-wide average will experience a decrease in tax burden. Under provincial regulations, the City has the option to reduce the tax ratios for the commercial, industrial and multi-residential classes, which could also cause shifts in tax burden between classes, as noted in the following section regarding property tax assistance for small businesses, commercial and industrial.

For reference, tax ratios are simply the ratio of the tax rate for a property class in comparison to the residential tax rate. Tax ratios apply to the municipal portion of taxes only.

The Multi-Residential Class consists of properties with seven (7) or more residential rental units. Residual Commercial Class consists of all commercial properties that are not Large Office Buildings, Large Shopping Centres, Large Sporting Complexes, Large Theatres or Parking Lots. Commercial General Class consists of Large Office Buildings, Large Shopping Centres, Large Sporting Complexes, Large Theatre, and Parking Lots. The Industrial Class consists of industrial properties.

In Toronto, for 2013, the City-wide CVA change is an increase in phased-in assessed value of 5.57% across all property classes. The increase in CVA for the residential and multi-residential classes is 5.67% and 5.73%, respectively, which are above the City-wide average. The increase in CVA for the commercial property class as a whole (including small business, Residual Band 2 and Commercial General) is 5.21%, and for the industrial property class, 4.33%, which are below the City-wide average. As a result, there will be a shift in tax burden from the commercial and industrial classes to the residential and multi-residential classes in 2013, and due to the 4-year CVA phase-in system, likely will occur in this order of magnitude over the next four years (to the 2016 tax year). These impacts are summarized in Column II of Chart 4 shown on the following page.

For reference, City Council has, since 2008, provided tax relief to small business by applying lower tax rates to part of the assessment for specific business tax classes. This has been achieved by annually adopting graduated tax rates wherein, for all properties in the Residual Commercial Class, the first \$1 million of assessed value (CVA) is taxed at a lower municipal tax rate (Band 1), and any assessed value over \$1 million is taxed at a higher municipal tax rate (Band 2). The Residual Commercial Class consists of all commercial properties that are not Large Office Buildings, Large Shopping Centres, Large Sporting Complexes, Large Theatres or Parking Lots. The rest of commercial is aggregated as Commercial General.

2013 Assessment Growth

New construction, predominantly in the condominium market (residential property class), continues to fuel assessment growth in Toronto, adding \$33.9 million in new tax revenue for the City, as shown in Chart 3.

On October 24, 2011, Council adopted item EX11.6: *Toronto Community Housing Corporation – Declaration as Municipal Housing Capital Facilities and Exemption from Municipal and School Property Taxes*. As a result of Council’s decision, approximately 289 TCHC properties, comprising some 40,000 affordable rental housing units, became exempt from taxation with an effective date of January 1, 2012. As part of this arrangement, the City reduced its subsidy to TCHC by an amount equivalent to the municipal taxes foregone by the tax exemption (\$55.6 million), so that there is no net financial impact to the City. Overall, the conversion of TCHC properties from taxable to exempt has resulted in net savings arising from the education portion of taxes to the TCHC of \$6.9 M beginning in 2012, to be used towards maintaining TCHC's housing stock in a state of good repair. After taking into account these tax adjustments, the net new revenue for the City from assessment growth is \$33.37 million annually, as shown at the bottom of Chart 3.

Chart 3 – Assessment Growth

Property Class	New Tax Revenue from Assessment Growth (\$M's)	
Residential	33.86	
Commercial	6.99	
Industrial	(3.03)	
Multi-Residential	<u>(60.17)</u>	
All Classes	(22.23)	
<hr/>		
TCHC Multi-Residential Tax Exemption*	<u>55.60</u>	
Net Assessment Growth	<u>33.37</u>	<u>+0.9%</u>

*TCHC exempted from property taxes commencing Jan. 1, 2012, under City's Municipal Housing Capital Facilities By-Law. Reduction in subsidy to TCHC equivalent to municipal portion of the tax exemption.

Property Tax Assistance for Small Businesses, Commercial and Industrial

Council's adopted policy commencing in 2006 under the 'Enhancing Toronto's Business Climate' initiative is to reduce the tax ratios for the multi-residential class and the business classes (commercial and industrial) to 2.5-times the residential tax rate by 2020 (a 15 year plan). The plan also provides for an accelerated reduction in tax rates for small businesses, with a target of 2.5-times the residential rate by 2015 (a 10 year plan, instead of the 15 years for the rest of commercial).

Reducing the tax ratios for the multi-residential class and the business classes is accomplished by (i) limiting the budget-related tax increases on these classes to 1/3 of that for the residential class; and (ii) shifting part of the tax burden from these classes onto the residential class.

The impacts of the recommended shift are shown in Column III of Chart 4. In order to reduce the tax ratios for the non-residential classes (multi-residential, commercial and industrial), a 'policy' tax shift onto the residential class of 0.30% in 2013 will be required in accordance with Council's target for tax ratios (shown in Column III). The net effect will be a combined CVA impact on the residential class of 0.51% or \$8.6 million (shown in Column IV). The combined CVA tax shift reductions for multi-residential will be -0.65% or -\$3.2 million, for commercial -0.33% or -\$4.4 million, for industrial, -0.84% or -\$1.0 million.

Chart 4 - 2013 CVA Class Changes and Resulting Municipal Tax Shifts, and Offsetting 'Policy' Tax Shift from Adopting Lower Tax Ratios

	Column I	Column II		Column III		Column IV	
		2013 CVA Impact		2013 'Policy' Shift from Adopting Lower Tax Ratios		2013 Net CVA Shift	
Property Class	2013 Average CVA Change %	\$ M	% (Average)	\$ M	% (Average)	\$ M	% (Average)
Residential	5.67%	3.60	0.21%	5.01	0.30%	8.61	0.51%
Multi-residential	5.73%	1.30	0.26%	(4.49)	-0.91%	-3.19	-0.65%
Commercial Residual	5.70%	1.37	0.22%	(2.96)	-0.48%	-1.59	-0.26%
Commercial General	<u>4.76%</u>	<u>(4.83)</u>	<u>-0.69%</u>	<u>2.04</u>	<u>0.29%</u>	<u>-2.79</u>	<u>-0.40%</u>
Commercial – Total	5.21%	(3.47)	-0.26%	(0.91)	-0.07%	-4.38	-0.33%
Industrial	4.33%	(1.42)	-1.12%	0.37	0.28%	-1.05	-0.84%
City-Wide	5.57%	0.00	0.00%	0.00	0.00%	0.00	0.00%

The combined effect of the 2013 CVA impacts, together with: (i) the necessary adjustments in respect of Council's commitment to Enhancing Toronto's Business Climate as shown above, and (ii) with the 2013 recommended budgetary levy increase of 2.0%, are summarized in Chart 5. Council's action in respect of Enhancing Toronto's Business Climate, along with the recommended 2.0 percent budgetary property tax

increase on residential class, and a 0.667 percent increase on the non-residential classes, will result in:

- a. a 2.51% average tax levy increase on the residential class;
- b. essentially no increase for apartment buildings (a 0.02% average tax increase);
- c. a net reduction in taxes for the industrial class; and,
- d. mitigation of the impacts to small and larger businesses offsetting the budgetary levy increase by approximately half (for a net increase of 0.33%).

Chart 5 – 2013 CVA, Enhancing Business Climate, and Budgetary Impacts

	Average CVA Impact	Average Enhancing Toronto's Business Climate Adjustment	Budgetary Levy Impact	Average Total Impact
Residential	0.21%	0.30%	2.00%	2.51%
Multi-Residential	0.26%	-0.91%	0.67%	0.02%
Commercial Residual	0.22%	-0.48%	0.67%	0.41%
Commercial General	<u>-0.69%</u>	<u>0.29%</u>	<u>0.67%</u>	<u>0.27%</u>
Commercial Total	-0.26%	-0.07%	0.67%	0.33%
Industrial	-1.12%	0.28%	0.67%	-0.17%
City Average	0.00%	0.00%	1.29%	1.29%

Chart 6 below illustrates the plan to reduce multi-residential, commercial and industrial tax rates. The City is on track to reaching its Enhancing Toronto's Business Climate tax reduction targets of 2.5-times the residential rate for small businesses by 2015, and for the rest of commercial, industrial and multi-residential properties by 2020.

Chart 6 – Projected Ending Tax Ratios of Recommended Action

	Historic	Actual				Recom- mended	Projected	
		2006	2009	2010	2011	2012	2013	2015 Target
Commercial	3.68	3.37	3.26	3.23	3.17	3.12 (vs. 3.15 target)	3.00	2.50
Industrial	4.09	3.55	3.26					
Multi-Residential	3.63	3.38	3.31	3.31	3.26	3.18 (vs. 3.15 target)		
Small Business	n/a	3.26	2.97	2.93	2.81	2.76	2.50	

Property Tax Assistance for Low-Income Seniors and Disabled Persons

The City provides both a Tax Increase Cancellation Program and a Tax Increase Deferral Program for low-income seniors and low-income disabled homeowners that meet certain eligibility criteria. Under the Tax Increase Cancellation program, eligible homeowners can have their tax increases, whether CVA or budgetary related, cancelled. Under the Tax Increase Deferral program, eligible homeowners can have their tax increases, whether CVA or budgetary related, deferred without interest, and only repayable once they are no longer the homeowner. Chart 7 provides a summary of these programs. For reference, City Council in 2009 enhanced the seniors and disabled tax relief programs by increasing the household income eligibility from \$26,000 to \$36,000 for the cancellation program, and from \$40,000 to \$50,000 for the deferral program.

Chart 7 – Property Tax Assistance for Low-Income Seniors and Low-Income Disabled Persons (current and recommended)

	Tax Increase Deferral Program	Tax Increase Cancellation Program
Seniors	<ul style="list-style-type: none"> - age 65 years or older; or aged 60-64 years and receiving a Guaranteed Income Supplement (GIS) and/or Spousal Allowance; or aged 50 years or older and receiving either a registered pension or pension annuity. - household income \$50,000 or less 	<ul style="list-style-type: none"> - aged 65 years or older or 60-64 years and receiving a Guaranteed Income Supplement (GIS) and/or Spousal Allowance - household income \$36,000 or less - property CVA equal to or less than \$575,000 (\$650,000 recommended for 2013 and 2014; \$715,000 recommended for 2015 and 2016)
Disabled Persons	<ul style="list-style-type: none"> - No age requirement - receiving support from one or more specified disability programs - household income \$50,000 or less 	<ul style="list-style-type: none"> - No age requirement - receiving support from one or more specified disability programs - household income \$36,000 or less - property CVA equal to or less than \$575,000 (\$650,000 recommended for 2013 and 2014; \$715,000 recommended for 2015 and 2016)

The City’s current Cancellation Program is restricted to properties with CVA values greater than \$575,000, being the average value of single family detached homes in 2012. This value has previously been updated bi-annually. With the 2013 reassessment, the average single family detached house value has increased to approximately \$711,500, with the value of approximately \$615,000 being returned as phased-in value for 2013, \$647,000 the phased-in value for 2014, and \$679,000 the phased-in value for 2015. Consistent with past practice, in order to keep pace with the increase in property values and to ensure eligible homeowners continue to be eligible for the cancellation program, staff are recommending the property value criteria be increased to \$650,000 for 2013 and 2014, and increased to \$715,000 for 2015 and 2016.

Since the inception of these programs, the City has funded over \$4.7 million from its operating budget for the Tax Increase Cancellation Program for the City portion of taxes (an additional \$2.1 million in provincial education taxes was also cancelled), and deferred over \$6.1 million in tax increases, of which the current receivable to the City is in the amount of \$3.6 million in deferred taxes. There is no interest charged under the Deferral Program.

It should also be noted that for low-income seniors and low-income disabled persons that are eligible for either of the above property tax assistance programs are also eligible for a rebate on their water bill, so long as their water consumption is less than 400 m³ annually.

Capping and Clawback

The *City of Toronto Act, 2006* (the “Act”) mandates capping protection which limits CVA-related tax increases on the commercial, industrial and multi-residential classes to 5% of prior years’ taxes. The *Act* provides the City with two additional capping options in order to increase progress towards fully implementing CVA taxation. The additional options include: (i) increasing the amount of the annual cap up to 10% of previous year’s taxes; and (ii) the option to base the cap of up to 5% on a property’s full CVA-level taxes instead of the previous year’s taxes (current year’s taxes would be calculated by adding 5% of past year’s CVA taxes to the past year’s actual capped taxes). The City funds the foregone revenue resulting from the 5% cap by reducing or ‘clawing back’ the decreases that properties facing decreases would otherwise experience.

A by-law needs to be enacted in each year to have either of the alternate caps apply. Since 2006, as adopted under ‘Enhancing Toronto’s Business Climate’, the City has enacted by-laws in each year to have option (ii) above apply. As an administrative matter, this report recommends Council continue to adopt such by-law for 2013.

Finally, commencing in 2009, the *Act* also provided for properties which reach their full-CVA level of taxation to remain at their CVA-level of taxation regardless of future CVA reassessments. This latter legislative change has had the most effect in accelerating the objective of reaching CVA-level taxation, and has been repeatedly supported by City Council dating back to the Enhancing Toronto’s Business Climate Initiative in 2005. Future assessment changes for properties that exit the capping/clawback system will be mitigated by the assessment phase-in under the new four-year assessment cycle. This report recommends that Council continue with the capping options of 5% of prior year’s tax and excluding properties once they reach CVA, with the benefit of reducing the cost and easing the burden on properties paying higher taxes due to the clawback.

Funding Rebates for Registered Charities

Provincial regulation provides that the tax rates and tax ratios for the commercial and industrial classes may be greater than would be allowed in order to fund rebates to charities from within the commercial and industrial classes. During 2012, the City processed 893 applications from eligible charities for the 2011 tax year, providing \$10.6

million in rebates to these charities, of which the municipal share is estimated at \$5.8 million. The Province funds the education share of the rebates.

It is recommended that the 2013 provision to the Non-Program Tax Account for Rebates to Charities in the Commercial and Industrial Property Classes be set in the amount of \$5,814,519 to fund the mandatory 2013 property tax rebates to registered charities in the commercial and industrial property classes.

Comparable Treatment of New Construction

In 2004, the Province introduced a legislative change related to the property tax treatment for new construction. This legislative change was made at the request of Ontario municipalities to address the fact that new construction was being taxed at the level of six ‘comparable’ properties, the identification of which was subjective and challenged by many developers. In many instances, this approach resulted in a newly constructed property’s taxes being set at a fraction of its full CVA-level of taxes, exacerbating and perpetuating inequities caused by the current capping system. Under this legislation, the City of Toronto phased-out the comparable treatment of new construction, and since 2008, the property taxes for new construction are set at the full uncapped (full CVA) taxes.

To implement this provision, Council must pass a by-law prior to April 30th in each year, as recommended in this report.
