Dear Disability Issues Committee:

Recently I have been contacted by several individuals with enquiries about the City of Toronto's Employee Accommodation policies and practices. The Disability Issues Committee is not a forum for hearing individual or specific employee accommodation matters. The primary [mandate](#) of the Disability Issues Committee is to advise Toronto City Council on the City's annual Accessibility Plan.

**Recommendation:**

1. The Disability Issues Committee requests a presentation and report from Human Resources Division about the City's Employee accommodation policies and practices for the City's agencies, boards, commissions, corporations and divisions.

Your consideration is appreciated.

Sincerely,

Adam Vaughan  
Chair, Disability Issues Committee
