Parking Amendment – Scott Street

Date:	March 12, 2014
To:	Toronto and East York Community Council
From:	Director, Transportation Services, Toronto and East York District
Wards:	Toronto Centre – Rosedale, Ward 28
Reference Number:	Ts2014044te.top.doc

SUMMARY

Transportation Services is requesting City Council authority to amend the parking prohibition on the west side of Scott Street, between a point 46 metres south of Front Street East and a point 9 metres further south. The parking prohibition provides emergency access to a Toronto Water pumping station. The pumping station access was recently moved further south on Scott Street as part of upgrades to the station and the parking prohibition needs to be amended to reflect this.

RECOMMENDATIONS

Transportation Services recommends that:

1. City Council amend the parking prohibition operating on the west side of Scott Street, between a point 46 metres south of Front Street East and a point 9 metres further south, to be in effect from a point 43 metres north of The Esplanade to a point 11 metres further north.
2. City Council amend the "pay-and-display parking, 8:00 a.m. to 9:00 p.m., Monday to Saturday, 1:00 p.m. to 9:00 p.m., Sunday, for a maximum duration of 3 hours at a rate of \$3.00 per hour" regulation on the west side of Scott Street, between a point 43 metres north of The Esplanade and Front Street East, to operate between a point 54 metres north of The Esplanade and Front Street East.

Financial Impact

Funds to undertake the necessary signage adjustments in the estimated amount of \$500.00 are contained within Transportation Services 2014 Operating Budget.

ISSUE BACKGROUND

Transportation Services, in consultation with Councillor McConnell, has investigated a request from Toronto Water to amend the parking prohibition on the west side of Scott Street, between The Esplanade and Front Street East, to accommodate changes to the Scott Street Pumping Station.

COMMENTS

Scott Street, between The Esplanade and Front Street East, is a 12-metre wide local road, operating north-south. TTC service (72-Pape bus route) is suspended on Scott Street due to Toronto Water work. Services will resume when construction is complete.

The Toronto Water Scott Street Pumping Station is located on the west side of Scott Street. Parking is prohibited for 9 metres in front of the previous access point to the station. North of this area there is pay-and-display parking. To the south there is pay-and-display parking and a standing prohibition for a TTC stop.

Due to the recent relocation of the access point to the pumping station, Toronto Water requested that the parking prohibition fronting the old access be relocated. The change in the parking prohibition will provide Toronto Water with direct access to the station. There will be no loss of pay-and-display parking as a result of these changes.

Councillor McConnell has been consulted on this matter.
