Re: Support for East-West Cycling Connections East of Sherbourne

Dear Chair & Members,

Ensuring the growing cycling community has access to safe infrastructure must be a top priority for the City of Toronto. The cycle track pilot projects on Adelaide and Richmond have proven to be a success, and are now a well-used piece of cycling infrastructure with no negative impacts on congestion.

Expanding cycling infrastructure east of Sherbourne is an important step as our city continues to invest in improving conditions for cyclists sharing the roads.

Therefore, I recommend the Committee:

- 1) Affirm Toronto and East York Community Council's support for fully separated cycle tracks on Dundas Street East crossing the Don River and connecting to Shuter Street via River Street to extend to the existing cycle track on Sherbourne Street and forward this motion to the Public Works & Infrastructure Committee for their information.

Sincerely,

Councillor Paula Fletcher
