(CD&A)**

This document provides a discussion and analysis of the Board-approved executive compensation for 2015 for the Named Executive Officers (NEOs) of Build Toronto Inc. ("Build Toronto). This document also outlines the Governance Practices of Build Toronto's Human Resource and Corporate Governance (HRCG) Committee and Board of Directors.

Build Toronto is a Corporation whose sole shareholder is the City of Toronto. Build Toronto is overseen by an 11-member Board of Directors whose members are appointed by the Toronto City Council. Executive compensation is overseen by the HRCG Committee of the Board of Directors. The composition and functional responsibilities of the HRCG Committee are consistent with our Shareholder Direction.

Executive Summary

The CD&A outlines the strategy and direction on executive compensation approved by the HRCG Committee and the Build Toronto Board of Directors. The significant points in this document are:

- There is a strong process in place to manage executive compensation at Build Toronto that is the responsibility of the HRCG Committee.
- The Build Toronto Board of Directors has enacted policies to bring the Build Toronto executive compensation program into compliance with City Council's desire to limit incentive payments to 25% of base salary, subject to existing legal obligations. Compensation for the CEO hired in 2013 complies with City Council's direction.

1.0 Build Toronto Board of Directors

The Build Toronto Board of Directors is responsible for overseeing the governance of the Build Toronto organization in compliance with the Shareholder Direction from the City of Toronto. Its primary function in this area is overseen by the HRCG Committee, supported by the Senior Vice-President, Legal and Administration, and the Director of Human Resources.

The Board works within a climate of respect, trust and candor, fostering a culture of open dialogue. It fulfills its duties by:

- Maintaining a governance framework that sets broad areas of responsibility and includes appropriate checks and balances for effective decision-making and approvals;
- Making decisions that set the tone, character and strategic direction for the company and approving the vision, mission, values and guiding principles developed by management;
- Regularly monitoring management's effectiveness, including its leadership, recommendations, decisions and execution of strategies to ensure that the CEO and

senior management carry out their responsibilities in an organized, efficient and professional way.

The Board reviews the corporate governance framework and practices and revises them as regulations change, and as industry and shareholder expectations and corporate best practices continue to evolve within the context of the Shareholder Direction.

2.0 Compensation Program

The executive compensation program includes a base salary, a short-term incentive plan (STIP), an OMERS pension plan and other benefits. The STIP is *at-risk* compensation, which is awarded according to how well Build Toronto performs as a company (corporate performance), and how well the executive performs in his or her role (individual performance).

2.1 The Relationship between Compensation and Build Toronto's Corporate Performance

The Executive Compensation system is directly linked to Build Toronto's performance targets. The Board of Directors through the consideration and adoption of an Annual Business Plan and a Five-Year Strategic Plan approves these targets. In addition to the financial targets as laid out in the Business Plan, Build Toronto's NEO's are evaluated on the performance of their business unit, and on City Building and Personal objectives.

OMERS contribution rates for normal retirement age 65 members for 2015 were 9.0% on the first \$53,600 (CPP earnings limit) of contributory earnings and 14.6% thereafter.
