COMMENTS

The subject properties are located on the south side of Elmhurst Avenue, west of Beecroft Road and north of Sheppard Avenue West. The applicant proposes to sever the existing two lots, creating three smaller lots requiring variances for lot frontage and lot area. The applicant also proposes to construct a new two-storey dwelling with an integral garage on each of the three newly created lots.

The subject property is designated *Neighbourhoods* in the City of Toronto Official Plan. *Neighbourhoods* are considered to be stable areas where new development will respect and reinforce the existing physical character. Section 4.1 outlines the development policies for *Neighbourhoods*. The preamble to the development criteria states that "physical changes to our established Neighbourhoods must be sensitive, gradual, and generally 'fit' the existing physical character." Policy 4.1.5 of the development criteria for *Neighbourhoods* requires that "development in established Neighbourhoods will respect and reinforce the existing physical character of the neighbourhood, including in particular:

b) size and configuration of lots."

The plan states that no changes will be made to the zoning by-law through re-zoning, minor variance, consent, or other public action that are not in keeping with the character of the neighbourhood.

The subject properties are zoned R6 under North York Zoning By-law No. 7625 and RD(f12.0; a370) under City of Toronto Zoning By-law No. 569-2013. The objective of the Zoning By-law is to establish specific standards as to how land is developed. These zoning categories require a minimum lot frontage and width of 12.0 metres and a lot area of 371 square metres under Zoning By-law No. 7625 and 370 square metres under Zoning By-law No. 569-2013. Standards for lot frontage and lot area are established to achieve a consistent streetscape and pattern of development.

Staff conducted a review of the frontages, depths, and areas of 405 lots in the neighbourhood bounded generally by Senlac Road to the west, Harlandale Avenue to the south, Beecroft Road to the east, and York Cemetery to the north. The zoning within the study area ranges between R4 and R6 under Zoning By-law No. 7625 and ranges between RD (f12.0; a370) and RD(f15.0; 550)(x5) under Zoning By-law No. 569-2013. Properties with frontages between 9.1 metres and 12.2 metres (similar to the lots proposed) constitute approximately 14% of the lots within the study area. This represents a minority of the lots that make up the character of the neighbourhood.

In addition, the applicant is proposing a two-storey detached dwelling with an integral garage for each of the new lots. These dwellings require variances to permit increases to lot coverage, building height, exterior main wall height, and finished first floor height under both Zoning Bylaw Nos. 7625 and 569-2013.

The proposed severance of the subject properties and the proposed two-storey dwellings do not respect the physical character of the lots and dwellings in this neighbourhood and do not meet the Zoning By-law standards.

RECOMMENDATION

Staff are of the opinion that this proposal does not respect the existing character of the area or the provisions of the Zoning By-laws. Staff recommend that Committee refuse these applications for consent and minor variance as the proposal is not in keeping with the intent of the Official Plan or the intent of the Zoning By-laws.
