**Date:** November 13, 2017  
**To:** North York Community Council  
**Subject:** Installation of All-Way Compulsory Stop Control at Garratt Boulevard and Regent Road

## **SUMMARY**

The residents of the area have requested that an all-way stop sign control be installed at the intersection of Garratt Boulevard and Regent Road. Although the investigation carried out by Transportation Services did not meet the numerical warrants for the installation of an all-way stop control, the residents feel that it would create a safer situation for pedestrians and motorists, as there have been several accidents at this intersection over the years.

Garratt Boulevard serves as one of the access points to Bombardier Aerospace which is located at 123 Garratt Boulevard, and TTC route 120 Calvington also operates along Garratt Boulevard. As such, the intersection is high in traffic and safety measures could be improved.

## **RECOMMENDATION**

It is recommended that:

1. North York Community Council authorize all-way compulsory stop control at the intersection of Garratt Boulevard and Regent Road.

Thank you for your consideration of this matter.

Sincerely,

Councillor Maria Augimeri  
Ward 9 – York Centre
