Attention: Ulli S. Watkiss, City Clerk

Dear Sirs/Mesdames:

**Re: PG18.5 Technical Amendments to By-law 569-2013
Accessible Parking Regulations
Bill Proceeding to Council Meeting on March 28, 2017**

We are solicitors for WAM Real Estate Investments Inc. and related companies (the "Clients"), relative to 3005 Bloor Street West and 14 Humbervale Boulevard (WAM Bloor and Humbervale LP) and their various other land holdings in the City of Toronto. Our Clients also have broad land interests in the City of Toronto and acquire additional interest in lands in the City from time to time.

We have reviewed the recommendations of the Staff Report and the draft amendment to By-law 569-2013 (Agenda Item PG18.5). Through this amendment, the City proposes to revise the accessible parking regulations in Section 200.15 of By-law 569-2013 (the "Amendments") in an attempt to make the zoning by-law consistent with the *Provincial Accessibility for Ontarians with Disabilities Act* (the "Act") and Ontario Regulation 191/11, *Integrated Accessibility Standards* (the "Standard").

We are writing to express our Clients' concerns with respect to the Amendments.

The Amendments go much further than required by the *Act* and the *Standard*. The Amendments propose to increase the length of accessible parking spaces from 5.6 metres to 5.9 metres. The *Act* and the *Standard* do not specify

NEW YORK

LONDON

SYDNEY

accessible parking space length, and City staff have not provided a rationale or justification for the proposed increase. The Amendments also propose that all accessible parking spaces be 3.4 metres in width, whereas the Standard allows 50% of the spaces to be provided at 3.4 metres in width and 50% of the spaces to be provided at 2.4 metres in width.

Our Clients are also concerned that the Amendments do not contain any transition or grandfathering provisions. It is unreasonable, unfair and prejudicial if the Amendments are imposed on properties that are subject to rezoning and/or site plan approval applications that have already been submitted and are presently under review or appeal. The Amendments are especially prejudicial for developments that have secured rezoning and/or site plan approvals, but are pending building permit issuance. The underground levels of a building are the most rigidly organized areas of a development project because the structural supports, slopes and drive aisle requirements are not amenable to reconfiguration. The flexibility to accommodate the revised standards of the Amendments is diminished with every successive development application and approval. Transition provisions for the Amendments are therefore necessary.

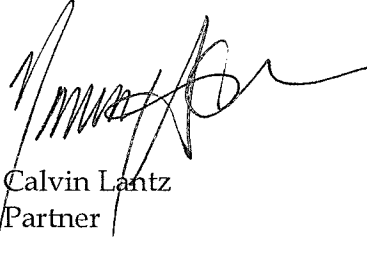

Properties subject to a zoning by-law amendment obtained on or after July 1, 2016 are particularly vulnerable as recent changes to the *Planning Act* do not allow a minor variance to be sought within two years of the amendment without obtaining Council's leave to do so. Without transition provisions for the Amendments, there is no certainty that such properties will be able to secure the required relief through the minor variance process should the proposed development not comply with the Amendments.

For the reasons outlined above, we respectfully request that the Amendments be referred back to City staff for further consideration. We also reserve the right to raise further issues and concerns with respect to the Amendments.

We ask to be provided with notice of all upcoming meetings of Council and Committees of Council at which the Amendments will be considered, and we ask to be provided with notice of Council's decision with respect to the Amendments.

If you have any questions or require further information, please contact the undersigned. Thank you for your attention to this matter.

Yours truly,

A handwritten signature in black ink, appearing to read 'Calvin Lantz', written over a vertical line.
