Hello Marilyn,

I am writing in support of Lenka Holubec's submission re tomorrow's vote on **Amendment 419 and SASP 551**.

We believe that Council must wait to receive the results of this summer's Study on High Park before passing this motion permitting the addition of 3000 new residents adjacent to High Park-- Natural Heritage property. The 2014 PPS requires that no deleterious effects to a Natural Heritage property are permissible with any new development.
