Dear Executive Committee:

The Bloordale Community Improvement Assoc. feels that the new Ward 16 should not be part of the Etobicoke-York Community Council. We are asking City Council to either create a Midtown Community Council as outlined in Option C or add Ward 16 to the Toronto and East York City Council area to keep together a historical community of interest.

As an active community organization in Davenport, I do not think our interests will be best served if we were in the Etobicoke-York Community Council. The existing community and future changes that are coming are much more similar to the areas east and the south of new Ward 16, not to the west. Three-quarters of the new Ward 16 is located in the Old City of Toronto. North and South of Bloor should be in the same Community Council area. Our treasured West Toronto Railpath would be in two different Community Councils. Other boundaries are being respected in the City, ours should be as well.

Thank you for your time

Sincerely

Judy Land
Chair
Bloordale Community Improvement Assoc. (BCIA)
