Re: **Traffic Study – Keele, Dundas West, Pacific, and Vine Corridor**

Traffic concerns have continued to grow in the Junction neighbourhood, with a recent studies showing a dramatic increase in the volume of traffic on local roads in the area. With six development applications in the Junction community, three of which are in the Keele Street, Dundas Street West, Pacific Avenue, and Vine Street corridor, this issue will continue to grow.

RECOMMENDATIONS:

Etobicoke York Community Council request the General Manager, Transportation Services to examine the existing traffic studies completed by the City and submitted through local development applications within the Keele Street, Dundas Street West, Pacific Avenue, and Vine Street corridor, and report back on what changes can be made within the corridor, and to the Keele Street and Dundas Street West.

Sarah Doucette
Councillor, Ward 13
