DECISION HISTORY

Under the *City of Toronto Act 2006*, City Council has the authority to appoint the Medical Officer of Health and Associate Medical Officers of Health for the City of Toronto Health Unit. These appointments are subject to the approval of the Ontario Minister of Health and Long-Term Care. Physicians require Associate Medical Officer of Health designation in order to have medico-legal signing authority under the *Health Protection and Promotion Act*.

COMMENTS

A public health physician is needed to fill a temporary vacancy, and this physician will require Associate Medical Officer of Health designation in order to fully perform their duties.

The recommended Associate Medical Officer of Health appointment is outlined in the Confidential Attachment. This appointment requires the approval of City Council and the Ontario Minister of Health and Long-Term Care.

City Council is being asked to repeal the by-laws or parts thereof appointing several public health physicians as Associate Medical Officers of Health as these individuals are no longer employees of the City. The names of these physicians are set out in section 2 of the Confidential Attachment. This does not require the approval of the Ontario Minister of Health and Long Term Care.
