COMMENTS

Service levels reflect discrete outputs that highlight the contractual levels of services being provided between staff, Council and the public. Service levels ideally express two key pieces of information: what is to be achieved; and how often it is to be achieved. Service level measures were identified in the 2011 Core Service Review.

Service levels are approved annually with the budget and speak to the manner in which services are delivered, and may include parameters such as frequency, turnaround time, accuracy, customer satisfaction, etc. Approved service levels are targets for the upcoming budget year, and actual service levels are the reported results.

Overall, the 2020 recommended service levels are consistent with the service levels approved in 2019. Where applicable, the Appendix attached to this report identifies where service levels have changed, added or deleted.
