Re: Communication MM 8.20 — St. James Cathedral Heritage Lighting Project

Dear Mayor Tory and Councillors:

We were delighted to see Councillor Wong-Tam's recommendations on this week's Council agenda. By adopting her recommendations, Council will complete a process initiated by the late Councillor McConnell, and advanced further by former Councillor Troisi.

The lighting project will be a fitting use of Section 37 funds from developments near St. James Cathedral and Park. Spire residents have a particular interest in the project since our building utilized development rights transferred from the Cathedral property. However, I am confident that residents from across the city will share our excitement as a landmark building is appropriately illuminated.

Sincerely,

Ian Morrison
President
