**RE: CC21.20, CYCLING NETWORK PLAN INSTALLATIONS - "DESTINATION DANFORTH"**

Dear Mayor Tory:

I am writing this letter to express my support and enthusiasm for Active TO and more specifically, Danforth Destination.

Though I cannot speak on behalf of the entire BIA membership, I do know that many of my peers and fellow Board Members agree that this is a positive step forward for the community and for business.

Above all else, this initiative is about guaranteeing the safety of residents and neighbours. Throughout the Covid crisis and subsequent lock-down, we have all demonstrated the ability to make changes and sacrifice for the health and well-being of our fellow citizens. What better time than now to build on this principle of concern and compromise, and afford all Torontonians the privilege of easier and safer access to an improved public streetscape.

I look forward to working with Coucillors Fletcher and Bradford to make Destiantion Danforth a reality.

Sincerely,

Billy Dertilis  
Chair, Danforth Mosaic BIA
