

**Attachment 2: COVID-19 Resilience Infrastructure Stream – Long-Term Care Sector Sub-Stream – Projects**

| <b>Project Lead</b>   | <b>Project Title</b>                                     | <b>Description</b>  | <b>Stream</b>  | <b>Estimated Project Total</b> |
|---|--|---|--|--------------------------------|
| Seniors Services and Long-Term Care                                     | HVAC Upgrades  | Upgrade humidifiers and air handling units in approximately nine City-owned long-term care homes based on Public Health recommendations as a means of greater infection control prevention. Work could include ventilation modifications, increased fresh air intake, increased air change rates per hour and UVC technology to supplement ventilation.   | Retrofits, repairs and upgrades to municipal buildings | \$3,000,000                    |
| Seniors Services and Long-Term Care                                     | COVID-19 Facility Innovative and Accessibility Solutions | Install accessible and touchless faucets, door hardware and door systems at approximately nine City-owned long-term care homes. These improvements will reduce touchpoints, helping to reduce the possibility of the spread of viruses, a key consideration in a current and post-COVID environment. In addition, this project would replace wooden handrails with stainless steel handrails and undertake accessibility upgrades to various bathing areas. | COVID-19 Response Infrastructure                       | \$3,000,000                    |
| Seniors Services and Long-Term Care                                     | Fire Alarm Replacement                                   | Replace aging fire alarm system at Wesburn Manor to improve life safety and functionality.  | Retrofits, repairs and upgrades to municipal buildings | \$1,500,000                    |
| Seniors Services and Long-Term Care                                     | Generator Upgrades                                       | Undertake emergency generator and electrical upgrades at approximately seven City-owned long-term care homes which helps improve resident safety and comfort.   | Retrofits, repairs and upgrades to municipal buildings | \$2,500,000                    |
| <b>Total Estimated Project Costs – Long-Term Care Sector Sub-Stream</b> |  |   |  | <b>\$10,000,000</b>            |
