
Date: December 3, 2020

To: North York Community Council –City Clerk's Office-Secretariat

From: Councillor John Filion

Subject: Seeking clarification about Cummer Station

SUMMARY:

In recent months there has been informal talk about a reduction in stations on the northern part of Line 1. Many planning decisions have been made based on the assumption of a Cummer station, and applications for high density development are currently with City Planning staff and the Local Planning Appeal Tribunal (LPAT) with density requests based on the proposed subway station. To deal with these applications it is essential to know, without delay, whether a station is to be built at Cummer

RECOMMENDATIONS:

1. City Council direct that, in light of the ongoing planning studies and appeals in North York, that the Executive Director, Transit Expansion seek written confirmation from Metrolinx regarding the status of Cummer Station to advise the Chief Planner and Executive Director, City Planning no later than January 31, 2021.
