Not to Scale  
February 2020

**Schedule "2" to Amendment 482****SASP 584. Protected Major Transit Station Areas – Finch West Transit Station Area****a) Protected Major Transit Station Area Delineation**

- i. The area surrounding and including the existing Finch West Subway Station is a protected major transit station area shown as the Finch West Transit Station Area on Map 1.

**b) Residents and Jobs per Hectare**

- i. Existing and new development within the *Finch West Transit Station Area* is planned to collectively achieve the minimum population and employment target of 200 residents and jobs combined per hectare.
- ii. The minimum population and employment target will be achieved based on all existing uses and new development over the long-term. Individual developments within a protected major transit station area are not required to meet the minimum population and employment target.

**c) Authorized Uses of Land**

- i. The authorized uses of land are as identified by the land use designations on Map 16 and associated land use permissions in Chapter 4 of the Official Plan.
- ii. Any detailed land use designations and permissions in any applicable Secondary Plan will align with the land use designations on Map 16 and also apply.

**d) Minimum Densities**

- i. Minimum density requirements are shown on Map 2, represented in Floor Space Index. For areas within a gross development block, the area used for the calculation of density requirements is based on the gross development block areas delineated on Map 2, with the objective of cumulatively achieving the minimum density requirement across all sites within the development block. For areas outside of a gross development block, the area used for the calculation of density requirements is on an individual lot basis.
- ii. Each site in a gross development block is not necessarily required to provide the minimum density requirement identified on Map 2 in recognition there are multiple land owners or sites within a gross development block and sites will redevelop at different times. Each development application submitted within a gross development block will be required to demonstrate, through the submission of a Block Context Plan, that the minimum density requirement across the block can be achieved. The Block Context Plan should be made in consultation with adjacent property owners.
- iii. Where minimum densities apply to lands designated *Neighbourhoods*, new development will achieve the minimum density identified on Map 2. Building

additions and extensions to lawfully existing buildings will not be required to meet the minimum density.

**e) Amendment to Site and Area Specific Policy 584**

- i. Any amendment to the delineation of this transit station area, the land use designations on Map 16 of the Official Plan within the delineated area on Map 1, or the policies of this Site and Area Specific Policy will require the approval of the Minister (as defined under the *Planning Act*, as amended) in accordance with Section 16(18) of the *Planning Act*, as amended.

**Schedule "3" to Amendment 482****SASP 585. Protected Major Transit Station Areas – Sentinel Transit Station Area****a) Protected Major Transit Station Area Delineation**

- i. The area surrounding and including the planned Sentinel Road LRT Station is a protected major transit station area shown as the *Sentinel Transit Station Area* on Map 1.

**b) Residents and Jobs per Hectare**

- i. Existing and new development within the *Sentinel Transit Station Area* is planned to collectively achieve the minimum population and employment target of 160 residents and jobs combined per hectare.
- ii. The minimum population and employment target will be achieved based on all existing uses and new development over the long-term. Individual developments within a protected major transit station area are not required to meet the minimum population and employment target.

**c) Authorized Uses of Land**

- i. The authorized uses of land are as identified by the land use designations on Map 16 and associated land use permissions in Chapter 4 of the Official Plan.
- ii. Any detailed land use designations and permissions in any applicable Secondary Plan will align with the land use designations on Map 16, and also apply.

**d) Minimum Densities**

- i. Minimum density requirements are shown on Map 2, represented in Floor Space Index. For areas within a gross development block, the area used for the calculation of density requirements is based on the gross development block areas delineated on Map 2, with the objective of cumulatively achieving the minimum density requirement across all sites within the development block. For areas outside of a gross development block, the area used for the calculation of density requirements is on an individual lot basis.
- ii.
