Scarborough Community Council &
Councillor Jennifer McKelvie

RE: Item 13.16, City Staff Report – Installation of traffic control signal at Meadowvale Road and Lawrence Avenue East

Dear Councillor Jennifer McKelvie and members of the Scarborough Community Council,

On behalf of the West Rouge Community Association, I am writing to express my fervent support for the installation of a traffic control signal at the intersection of Meadowvale Road and Lawrence Avenue East.

Traffic control at this intersection will help to decrease speeding and increase sight lines for motorists when making turns. Traffic control will also ensure that pedestrians are able to safely cross Lawrence Avenue, a 6-lane arterial road, in order to access Saint-Michel Elementary School, TTC, Wanita Park, and Highland Creek trails. The West Rouge Community Association urges you to support this safety measure, which aligns with Toronto's Zero Vision Road Safety Plan.

Sincerely,

A handwritten signature in black ink, appearing to read "Kathi Loughran".
