

2021 Budget Notes Technology Services Division

While we aim to provide fully accessible content, there is no text alternative available for some of the content within these pages. If you require alternate formats or need assistance understanding our charts, graphs, or any other content, please contact us at <u>FPD@toronto.ca</u>.

Description

The Technology Services Division (TSD) provides city-wide leadership in modernizing and innovating City services through strategic technology investments that advances principles of access, affordability and resiliency with equity as a driving factor: This includes:

- Providing a standardized and best practice technology environment to enable program and service delivery supporting the aspirations of a digital government.
- Collaborating in partnership with all stakeholders (including the Federal and Provincial Governments, community organizations, residents and businesses) to ensure efficient and effective modernization of solutions with the goal of improving the public experience to access City services.
- Ensuring fiscal stewardship in delivery of results based outcomes to enhance business processes and technology implementations.

Why We Do It

Our services align to the City's Digital Infrastructure Plan, demonstrating a commitment to equity and inclusion, supporting a Well Run City, creating social, economic and environmental benefits, ensuring privacy and security and enabling democracy and transparency. The Technology Services Division (TSD) leads innovative technology services and solutions that effectively supports the delivery City services to its stakeholders by ensuring:

- The City's technology environment is resilient, robust and agile.
- City divisions, residents and businesses experience reliable business continuity enabled from a digital infrastructure that meets their service delivery requirements.

The City of Toronto aims to deliver these outcomes equitably, efficiently and with excellent customer service to help improve the lives of Torontonians and work to earn their trust and confidence.

What Service We Provide

Business Technology Solutions

Who We Serve: City and Agency Staff, Businesses, Residents, & Visitors What We Deliver: Customer centric sustainable digital solutions How Much Resources (gross operating budget): \$53.7 million

Computer & Communications Technology Infrastructure

Who We Serve: City and Agency Staff, Businesses, Residents, & Visitors What We Deliver: Stable and scalable technology infrastructure How Much Resources (gross operating budget): \$57.8 million

Enterprise Technology Services Planning & Client Services

Who We Serve: City and Agency Staff, Businesses, Residents, & Visitors What We Deliver: Investment yielding measured outcomes How Much Resources (gross operating budget): \$26.9 million

Budget at a Glance

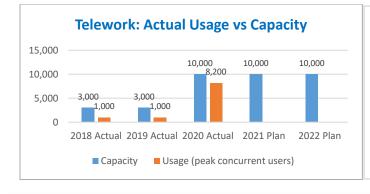

| / | 2021 OPERATING BUDGET | | | | | | | | | | | |

How Well We Are Doing – Behind the Numbers

| % A | vailabil | ity of Bu | isiness A | Applicati | ons |
|--------------------|----------------|----------------|------------------------|--------------|--------------|
| .00% 98% 96% | | | | | |
| 94% | 2018 Actual | 2019 Actual | 2020 Proj Actual | 2021 Plan | 2022 Plan |
| | 99.97% | 99.97% | 99.95% | 99.95% | 99.95% |

- Gauges performance in completing projects as well as capacity to take on new projects
- As the ratio of completed projects to those planned increases, benefits are realized, and resources can take on new project demands
- Project completion rates reflect an increase from 2018 as a result of greater programmatic alignment of projects to enable better prioritization decisions, leading to the convergence of project planning and completion rates
- Earlier identification of required resources ensures projects are delivered on time
- Measures the availability of all business applications managed by TSD
- The availability of business applications has been maintained as a result of better planning and fewer incidents
- Deviations mainly due to scheduled maintenance/upgrades
- Large increase in capacity and usage in 2020 due to COVID-19 work from home directive, demonstrating the resilience in
 - expanding remote and digital capabilities.
- This does not include Agencies, Boards, Commissions and Corporations, which will be accounted for by the Workplace Modernization Program

COVID 19 IMPACT AND RECOVERY

2021 Impact and Recovery 2020 Impact Financial Impact (Operating) **Financial Impact (Operating)** The \$8.8 million net unbudgeted expenditures incurred due to The City continues to incur the following operating COVID includes: expenditures as a result of expanding the its remote and digital capabilities to support mobile work, virtual council \$7.1 million in acquiring additional capital assets (incl. and remote teams, in 2020: servers, laptops, monitors, tablets, firewall, etc.) to increase technology capacity to enable city-wide \$1.0 million in enhancing security capability for teleworking \$2.4 million to increase internet bandwidth, teleworking. and other technology/staff support costs to support Town \$0.9 million in increasing internet, cloud Hall meetings/events and city-wide teleworking subscriptions, hardware/software maintenances, \$0.6 million loss in capital and project staff revenue etc. to enable City-wide staff to telework and • recoveries resulting from COVID redeployment host Town Hall meetings/events. \$0.6 million in acquiring cloud subscriptions for Savings due to COVID digital signatures, voice agent inquiries, and Chabot to meet modernized business needs. \$1.3 million underspend related to staffing due to the allocation and prioritization of resources to the City's COVID-19 pandemic response **Financial Impact (Capital) Financial Impact (Capital)** The 2020 capital budget was adjusted to reflect changes Impacts for 2021 due to allocation of funding to support COVID costs, Desktop Hardware will incur additional costs as delays in coordination of procurement activities and nonthe City transitions to 90% notebooks and availability of resources due to redeployment. increased telework \$15.8 million in capital projects delayed as part of the • Internet services will incur \$1.3 million due to City's capital slowdown to enable potential offsets to increased number of remote users COVID-19 impacts. This includes five new 2020 projects New Projects in 2021 related to COVID: that were cancelled or deferred to 2021 totalling \$3.3 ConnectTO – Network Utility (\$0.4 million), million and 44 on-going projects reduced/deferred to 2021 Office 365 (\$5.0 million) totalling \$12.5 million. \$4.1 million of the deferred funding was included in the 2021 Budget (COVID-19 Financial Impact Slide) to continue with the ongoing projects Division received capital budget infusion to account for • additional technology capital assets procured due to COVID Service Level Changes **Service Level Changes** Review of service levels to reflect changes may be Conducted 270 virtual Council, City-wide Town Halls and • required for technology upgrades and improvements Public consultations Increased Cloud Computing capabilities from 10% to 15% Moved of TELUS Data Centre Implemented 311 Chatbot and evolved to Voice-Chatbot Increased telework capacity from 3,000 to 10,000 952K+ participants conducted 199K+ WebEx meetings Increased the mobile computers by 44% from 8,600 to 12,400 **Implemented Digital Signatures** Increased and enhanced internet capacity Enabled additional remotely controlled devices • Enhanced Server capacity Enterprise Tableau Licensing to support reporting

EXPERIENCES, CHALLENGES AND PRIORITIES

Our Experience and Success

- Demonstrated resilience and expanded the City's remote and digital capabilities (use of collaboration tools, virtual council and public deputations, Chatbot etc.) within a few weeks to deliver services and support a digital society and a mobile workplace in response to the pandemic
- Support of City-wide Service consolidation using Technology as a lever in the area of 311
- Implemented the Coronavirus Rapid Entry (CORES) Case and Contact Management System used by Toronto Public Health to document data related to the pandemic and share data with the Ministry of Health, in-house
- Collaborated with other Divisions to deliver over 25 different digital solutions (MLS Online Permitting and Licensing, P&E Redeployment Survey, Online Staff Inquiries Management System, Voluntary Separation Program, etc.) to assist with the COVID-19 response efforts
- Developed a new online intake portal to enable and supported the initial launch of the Concepts to Keys program, which the City set up to transform, enhance and improve how the City of Toronto attracts, facilitates and regulates development activity
- Partnered with other technology and telecommunications companies and provided free public internet access to 25 Tower Neighbourhood buildings (over 13,000 people), in City shelters, Long-term Care Homes, recreation centres to support digital equity
- Managed donations of over \$1,000,000 in equipment from technology companies such as 500 free smart phones with 6 months of free service to the Toronto Aboriginal Support Services Council and communication devices for shelters to support digital equity
- Tiffield Data Center construction completed successfully in Mar 2020 will allow consolidation of multiple production data centers and provide shared space to agencies
- Upgraded the City's Museums & Arts Services Historic sites, such as Fort York and enabled more technologically advanced programming for the Economic Development & Culture Division
- Partnered with Shelter Support & Housing Administration Division and Toronto Public Health and developed Use Cases to be implemented using Artificial Intelligence and machine learning for the benefit of Toronto Housing availability and affordability
- Successfully obtained Council adoption on Digital Infrastructure Plan principles and work plan
- Continued with stakeholder engagement and public feedback by establishing a Digital Infrastructure Plan Community Advisory Group

Key Challenges and Risks

- Sustainable funding model for transition to a "Cloud First" environment
- Prioritization of capital funding may impede timely, new and innovative technology service provisioning
- COVID-19 response and recovery efforts resulting in fatigue and impact/delay divisional technology services centralization as well as shared services with Agencies and Corporations
- Ability to respond quickly to constant change and greater demands on technology services due to
 resource constraints

Priority Actions

- Accelerated investment to build the resilient teleworking technology infrastructure required to enable a remote workforce, digital service delivery channels and the Workplace Modernization program
- Investment to implement recommendations of the Auditor General that will address City-wide risk and
 result in a secure, reliable and high performing technology environment that is modernized and wellpositioned to respond to growing business needs and resident demands
- Improve integrated service delivery by streamlining software development and technology operations leveraging new approaches
- Leverage cloud computing to bring a consistent standard approach to delivering business solutions
- Implement strategically aligned work intake and governance model to optimize capacity vs. demand management, improve management of risk and improve service delivery capabilities

RECOMMENDATIONS

The City Manager and Chief Financial Officer and Treasurer recommend that:

1. City Council approve the 2021 Operating Budget for Technology Services of \$138.303 million gross, \$35.262 million revenue and \$103.041 million net for the following services:

Service:

| | Gross Expenditures (\$000s) | Revenue (\$000s) | Net Expenditures (\$000s) |
|--|-----------------------------------|---------------------|---------------------------------|
| Business Technology Solutions | \$53,657.4 | \$21,112.2 | \$32,545.2 |
| Computer & Communications Technology Infrastructure | \$57,759.1 | \$11,655.3 | \$46,103.8 |
| Enterprise Technology Services Planning & Client Services | \$26,886.3 | \$2,494.0 | \$24,392.3 |
| Total Program Budget | \$138,302.8 | \$35,261.5 | \$103,041.2 |

- 2. City Council approve the 2021 staff complement for Technology Services of 763.0 positions comprised of 136.0 capital position and 627.0 operating positions.
- 3. City Council approve the 2021 new user fees, technical adjustments to user fees, market rate user fee changes, rationalized user fees, and other fee changes above the inflationary adjusted rate for Technology Services identified in Appendix 9, for inclusion in the Municipal Code Chapter 441 "Fees and Charges".
- 4. City Council approve 2021 Capital Budget for Technology Services with cash flows and future year commitments totaling \$100.471 million as detailed by project in Appendix 6a.
- 5. City Council approve the 2022-2030 Capital Plan for Technology Services totalling \$221.864 million in project estimates as detailed by project in Appendix 6b.

Table 1: 2021 Operating Budget by Service

*2020 Projection based on Q3 Variance Report

COSTS TO MAINTAIN EXISTING SERVICES

Total 2021 Base Budget expenditures of \$136.040 million gross reflecting an increase of \$9.044 million in spending above 2020 projected year-end actuals (prior to enhancements), predominantly arising from:

- · Annualized costs of expanding the City's remote and digital capabilities due to the pandemic,
- Additional resources required to support Toronto Public Health's COVID-19 Case & Contact Management system, and
- Investments required to enhance and accelerate the development of the City's digital service infrastructure and support the Workplace Modernization Program to drive future savings/ efficiencies.

Given the financial impacts of COVID-19 on 2020 actuals, a further comparison of the 2021 Recommended Budget (excluding 2021 COVID-19) to the 2020 Council approved Budget is provided below:

 2021 Base Budget of \$100.779 million in net expenditures reflects an \$8.727 million net increase from the 2020 Council approved Budget, when excluding \$2.474 million in estimated COVID-19 financial impacts.

COSTS TO ENHANCE SERVICES

New and Enhanced Service expenditures of \$2.262 million gross, enabling:

• Mitigation and management of City-wide risk and implementation of Auditor General recommendations

EQUITY IMPACTS OF BUDGET CHANGES

No significant equity impacts: The changes in Technology Services' 2021 Operating Budget do not have any significant equity impacts.

2021 OPERATING BUDGET KEY DRIVERS

The 2021 Operating Base Budget for Technology Services is \$136.040 million gross or 7.1% higher than the 2020 Projected Actuals. Table 2a below summarizes the key cost drivers for the base budget, while Table 2b summarizes New and Enhanced requests.

| | | | | | • | | |
|-------------------------------|-----------|--------------------|-------------|--------------------|-----------|-----------------|------------|

*2020 Projection based on Q3 Variance Report

Salaries & Benefits:

2020 projection reflects impacts of the allocation of resources to prioritize the COVID-19 pandemic response. 2021 reflects hiring required for accelerated digital modernization and resuming capital projects to support digitization.

Materials and Supplies:

Reflects annualized utility costs attributed to new data centre.

Services and Rents:

Increase mainly due to operating impacts from completed projects and price increases due to contractual terms/consumer price index increase.

COVID-19 Impacts:

Operating expenditures as a result of expanding the City's remote and digital capabilities to support mobile work, virtual council and remote teams.

Other Revenue Changes:

Reflects capital recoveries from resuming the capital program and recoveries from eligible Divisions to support operational business needs.

Table 2b: 2021 Balancing Actions

Balancing actions in the recommended budget help offset operational pressures driven by the City's goal of improving services through digitization:

- \$0.248 million reduction in operating expenditures reflects savings from a line-by-line review based on historical actuals.
- \$0.748 million reduction as a result of better negotiations and pricing on technology maintenance contracts.
- \$0.869 million one-time reduction (2021 only) resulting from Voluntary Separation Package.
- \$0.801 million reduction attributed to implementing new technologies, eliminating co-located data centre rent by centralization, switching licensing model for enterprise print management maintenance, and savings as a result of Hana implementation.
- \$0.410 million in efficiencies from eliminating 2 vacant positions by implementing the telecom expenditure management (TEMS) project and the managed services for the human capital management system (SuccessFactors).

Table 2c: 2021 New / Enhanced

| | | 2021 2022 Equity | | | | | |
|--|---------|------------------|---------|-----------|---------------------|--------|--|
| New / Enhanced Request | Revenue | Gross | Net | Positions | Annualized Gross | Impact | Supports Key Issue / Challenge |
| In \$ Thousands | | | | | | | |
| City-Wide Security Risk Management & Mitigation | | | | | | | |
| 1 Implement Segregation/Segmentation & Security Control Tool - AU4.1(7) | | 1,711.8 | 1,711.8 | | 1,711.8 | None | Auditor General recommended to mitigate City risks |
| 2 Increase Network and Security capacity from Managed Security Service Provider Implementation | | 453.8 | 453.8 | | 453.8 | None | Auditor General recommended to mitigate City risks |
| 3 Implement Asset Management Tool to Control/Restrict unauthorized Access to Open Data - AU7 13(2)(a)&(b) & AU 4.1 | | 96.7 | 96.7 | | 96.7 | None | Auditor General recommended to mitigate City risks |
| Total New / Enhanced | | 2,262.4 | 2,262.4 | | 2,262.4 | | |

Investments totalling \$2.262 million in 2021 are included in the recommended budget to address citywide risk and implement Auditor General Recommendations:

- \$0.097 million to replace End of Life hardware used to control and restrict unauthorized access to local area networks.
- \$1.712 million for hardware and software to implement adequate network security segregation and security controls based on business needs, risk and emerging architecture.
- \$0.454 million to support managed security services by expanding the existing technology infrastructure/capacity.

Note:

For additional information on 2021 key cost drivers refer to <u>Appendix 2</u> as well as <u>Appendix 3</u> for a more detailed listing and descriptions of the 2020 Service Changes and <u>Appendix 4</u> for the 2021 New and Enhanced Service Priorities, respectively.

2022 & 2023 OUTLOOKS

Table 3: 2022 and 2023 Outlooks

*2020 Projection based on Q3 Variance Report

Key drivers

The 2022 Outlook with total gross expenditures of \$153.918 million reflects an anticipated \$15.615 million or 11.3 per cent increase in gross expenditures above the 2021 Operating Budget. The 2023 Outlook expects a further increase of \$1.082 million or 0.7 per cent above 2022 gross expenditures.

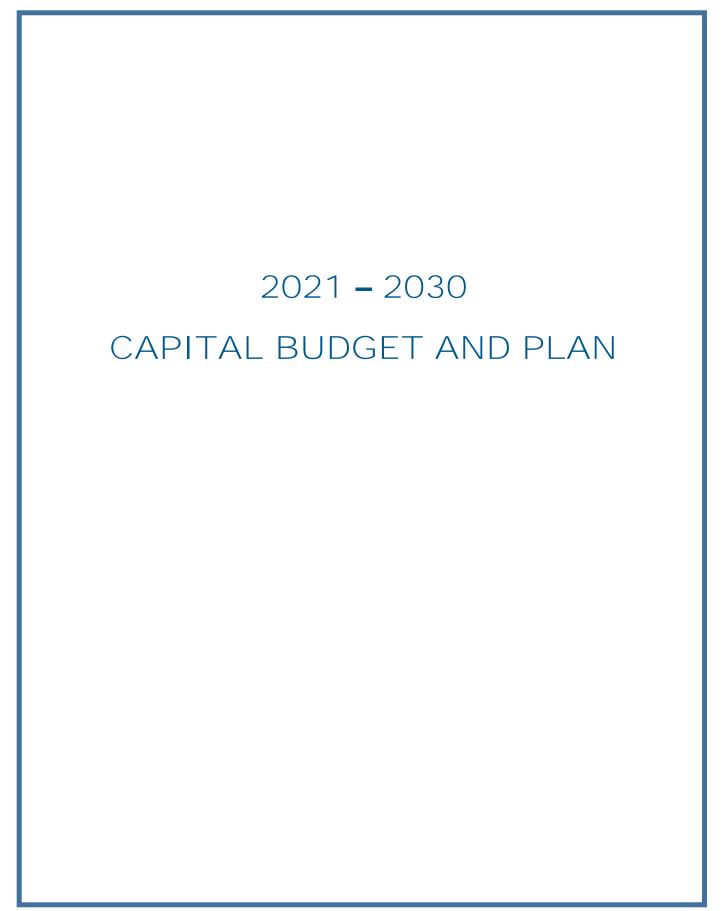

These changes arise from the following:

Impacts of 2020 decisions

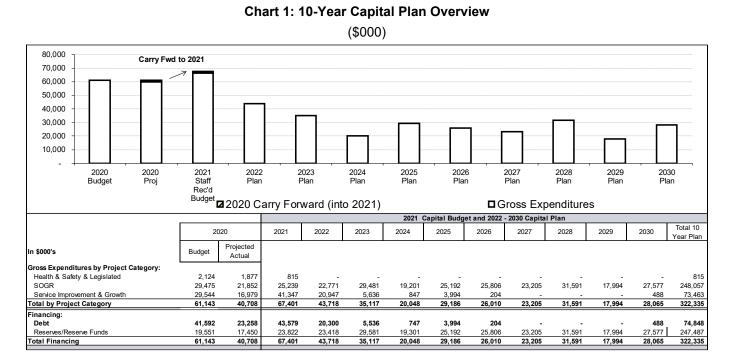

Additional \$12.729 million to complete the implementation of Office 365 to modernize communication/collaboration and enhance productivity. **(2022 Only)**

• Salaries and Benefits

Increase in Salaries and benefits reflective of collective agreement obligations. (2022 2023)

2021 2030 CAPITAL BUDGET & PLAN OVERVIEW

Changes to Existing Projects

(\$19.5 Million)

- Modernized Data Center Architecture will modernize the City's technology infrastructure, system development capabilities and methodologies to support and meet City strategic initiatives and priorities
- Consolidation of the Enterprise Work Management Solution project within TSD

New Projects

(\$10.7 Million)

- Office 365 implementation
 includes hardware and
 configuration
- ServiceNow replaces TSD's Project Portfolio Management System.
- Access Control Self-Serve
 will upgrade access control
 software platforms.

 ConnectTO begins preliminary work in support of the Council work plan to develop the City's first Digital Infrastructure Plan.

Capital Needs Constraints

(\$5.4 Million)

 Desktop Hardware Replacement

Note:

For additional information, refer to <u>Appendix 6</u> for a more detailed listing of the 2021 and 2022-2030 Capital Budget & Plan by project; <u>Appendix 7</u> for Reporting on Major Capital Projects – Status Update; and <u>Appendix 8</u> for Capital Needs Constraints, respectively

2021 – 2030 CAPITAL BUDGET AND PLAN

| D | ST CONTRACTOR | 會 | | |
|--|---|--|---|--|
| A Well-Run City | Fiscal Responsibility | Housing | Mobility | Infrastructure |
| \$62.3M 18% | \$1.0M 1% | \$1.1M 1% | \$15.5M 5% | \$242.5M 75% |
| MLS System Modernization Modernized Data Center | Telecom Expense Management Replacement - Transitioning management and reporting to third party for improved | Toronto Property System Artificial Intelligence for Shelter, Support | Geospatial Strategy Roadmap – Utilizing data to improve outcomes | <i>Technology</i> <i>Lifecycle</i> <i>Management -</i> Infrastructure. Refresh – E.g. Laptop and tablet |
| Enterprise Work Management Solution Office365 | service delivery | and Housing Administration and Toronto Public Health - Utilizing data to improve outcomes | ConnectTO – Maximization of City Asset to deploy public Wi-Fi | replacement – transitioning from desktops |

\$322.3 Million 10-Year Gross Capital Program

Future year capital investment will change as the Technology Services Division (TSD) transitions to a Cloud First Strategy. Cloud adoption brings about a shift on the profile of how investments are funded. As most cloud services are subscription-based, this model sees a shift to more Operating Expenditures as opposed to Capital Expenditures. Capital Investment will continue to be needed to support the expedient delivery of these cloud services. The first big investment in 2021 in this area with the implementation of Office 365 in support of Workplace Modernization Requirements. Benefits include:

- Greater cost agility with infrastructure as a service Cloud services have a high degree of cost variability, ٠ so expenses can quickly go down if demand for services is reduced.
- Increase retained cash By using cloud/on-demand services, the City does not have to invest upfront to • buy technology infrastructure via regular refresh cycles.
- Reduced Opportunity Costs Opportunity costs are defined as the value foregone by pursuing a certain • course of action. By choosing to use cloud/on-demand, the City can free up cash to invest in other parts of the corporation

How the Capital Program is Funded

CAPACITY TO SPEND REVIEW

The 10-Year Capital Plan has been developed with consideration of historical demonstrated ability to spend within any given year of the ten year capital plan. A review was undertaken to ensure budgets align with Technology Service's ability to spend and the markets capacity to deliver.

A key component in determining an appropriate level of annual cash flows includes historical capacity to spend reviews by project categories (Chart 2 below) as well as the level of projected 2020 underspending that will be carried forward into 2021 to complete capital work.

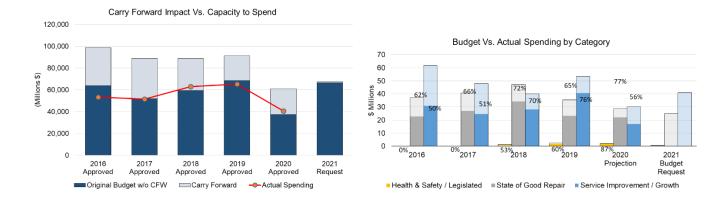

Chart 2 – Capacity to Spend

Capacity to Spend Review Impact on the 10-Year Plan

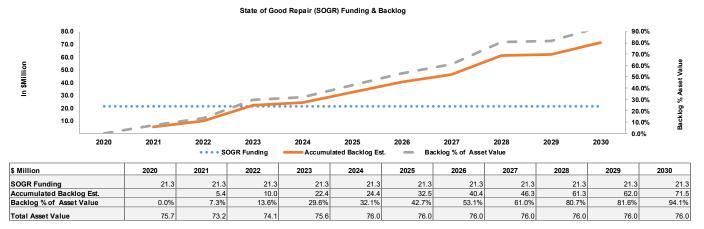

Based on the review of historical capital spending constraints and a capacity to spend review, \$1.096 million in capital spending originally cash flowed in 2020 has been deferred to 2021. Adjustments to the Capital Plan are noted below:

- *MLS Systems Modernization* reduced 2020 budget by \$2.771 million and deferred \$1.207 million to 2022 based on project timelines and capacity to spend
- Eighteen TSD projects have decreased their 2021 budget ask based on TSD's divisional priorities, resource constraints, timelines and capacity to spend. The collective total decrease is \$6.212 million in 2021 compared to the previously submitted 2021 budget.
- Desktop Software Replacement has reduced the 2021 budget by \$15.3 million with the transition to Office365. Alternatively, Office365 Project was added for \$8.784 million over 2021, 2022 and 2023.
- Enterprise Work Management Solution Program has been consolidated across four divisions (Toronto Water, Solid Waste, Parks Forestry & Recreation, and Transportation) for the total budget to reside in TSD. The consolidation has a net zero impact across The City, however it increases the TSD budget by \$9.053 million in 2021 and \$8.162 million in 2022.
- *Telephony Upgrade* Project from 311 was transferred to TSD in 2021 resulting in an increase of \$1.315 million in 2021 to TSD's budget with an offsetting \$1.315 decrease in 311's budget.
- Projects included in TSD's 2021 budget fall within the following phases
 - a. 30-100% design completed, procurement-ready \$37.5M (56% of budget); 22 projects (43%)
 - b. 5%-30% design completed, procurement-ready \$11.2M (17% of budget); 13 projects (25%)
 - c. 5%-30% design completed, not procurement-ready \$7.5M (11% of budget); 8 projects (16%)
 - d. 0%-5% design completed, with estimates \$11.2M (17% of budget) & 8 projects (16%)

STATE OF GOOD REPAIR (SOGR) FUNDING & BACKLOG

The chart below depicts the SOGR funding and accumulated backlog estimates for key asset classes in Technology Services such as Lifecycle Management (Desktop Hardware, Software, Servers, etc.).

The TSD Life Cycle Management (LCM) programs ensure investments are made so that TSD solutions are kept reliable, current, compliant, and supported for continued client satisfaction for all TSD systems. Technology Infrastructure Services management continually reviews and assesses the technologies that are being sustained by the LCM program to ensure alignment with leadership visions and directions, such as Public Cloud First and ModernTO, while also keeping in mind the constant changes in the technology landscape such as new technologies and increased Cyber Security Risks.

- Funding in the 10-Year Capital Plan addresses State of Good Repair based on planned lifecycle and ensures business continuity of the City's technology. Based on this plan, it is forecasted that there will be a backlog starting in 2021 and additional funding is required to support it.
- Over 49% (\$121 million) of TSD's 2021 2030 Life Cycle Management Costs is to refresh desktops and laptops. Due to COVID restart/recovery the 10-year refresh includes the cost of 24,000 units split in a ratio of 90% laptops and 10% desktops.
- Over 22% (\$56 million) is to refresh Network Assets and includes the cost to implement the AG recommendation for Network Access controls & Network Segmentation
- Over 8% (\$20 million) is to support Internet Services and includes the impact of increasing the number of remote workers and the number of network related hardware due to COVID.

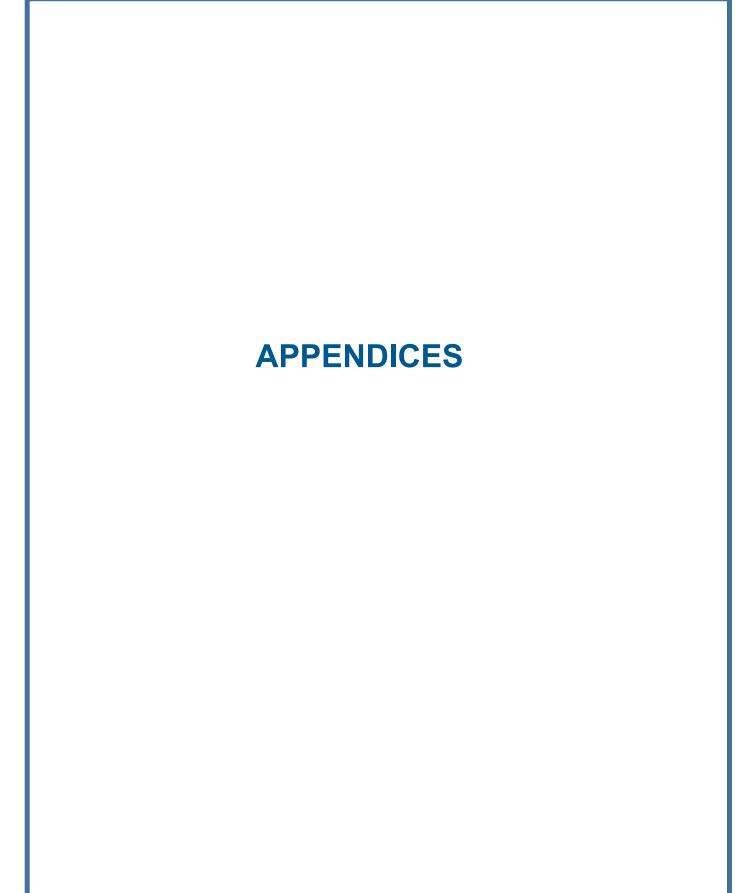

The increasing backlog has been identified as part of the 2021 budget process following a change in provided hardware (i.e. notebooks). Technology Services will work with FPD to address the projected backlog growth as part of future budget process.

OPERATING IMPACT OF COMPLETED CAPITAL PROJECTS

The 10-Year Capital Plan will Budget will impact future year Operating Budgets by \$8.277 million net over the 2021-2030 period, primarily due to the completion of the below mentioned projects expected to be completed in 2021 and 2022, as shown in Table 4 below.

Table 4: Net Operating Impact Summary

Program Specific Reserve / Reserve Funds

Due to increased lifecycle management costs to support growth and increased remote working due to COVID-19, additional pressures are present on Technology's Services Sustainment Reserve (i.e. replacing desktops with laptops). The program continues to work with Financial Planning to manage the reserve balance while budget funding for commitments will be confirmed prior to any expenses being incurred.

Glossary

Approved Position: Permanent or temporary positions that support the delivery of City services and service levels as approved by Council.

Actuals: An actual financial amount paid (or received) for the delivery of City services (these exclude any commitments to be paid in the future).

Capacity to Spend: Ability to spend money along with the capacity to deliver projects as demonstrated by historic spending patterns and approved contractual obligations.

Capital Budget: A Capital Budget is the City's plan to acquire / build assets or extend the useful life of existing assets; an example of a capital expenditure is the construction of a new community centre.

Capital Needs Constraints: The capital needs that cannot be accommodated within the capital plan that the Division or Agency have the capacity to deliver.

Complement: Positions that support the delivery of City services and service levels as approved by Council.

Efficiencies: Reductions in the cost of delivering a service without a reduction in service level.

New / Enhanced: New and enhanced service changes resulting in an increase in service levels from what was previously approved by Council.

Operating Budget: An Operating Budget is the City's annual plan to provide services to the residents of Toronto; the budget includes all revenues and expenses needed to provided services; an example of an operating cost would be the cost to run the TTC subways.

Operating Impact of Completed Capital Projects: The additional expense (or savings) and positions needed to operate or maintain a new asset; an example would be the additional expense and staff needed to operate a recently completed community centre.

Rate Supported Budget: Budget fully funded by user fees such as Solid Waste, Toronto Water and Toronto Parking Authority

Staff Recommended Operating / Capital Budget: An operating or capital budget recommended by City Manager and Chief Financial Officer and Treasurer to City Council for consideration and approval.

State of Good Repair (SOGR): The cost of maintaining assets to ensure they are able to support the delivery of City services and meet service outcomes

Tax Supported Budget: Budget funded by property taxes.

User Fees: Program generated fee and rental revenue for the use of its services (such as the TTC fare, ice rental fees and various City permits).

Value Based Outcome Review (VBOR): The City conducted a Value Based Outcome Review in 2019 for all of its operations and agencies to identify specific opportunities and strategies to maximize the use of tax dollars, enhance its financial sustainability while achieving service outcomes. These opportunities will help the City chart its financial course in the next four years.

Voluntary Separation Program – On July 28th, 2020, City Council approved the implementation of a Voluntary Separation Program for staff who are eligible to retire with an unreduced pension providing a lump sum payment of up to three months' salary to eligible employees, subject to the terms of the program guidelines, funded through savings generated from a combination of permanently eliminating vacated positions and/or holding the positions vacant for a minimum of six months.
