3. Section 5.1 Managing Growth and Change: The Planning Tool Box is amended by adding the following policy as a new Policy 8:

"Inclusionary Zoning

Inclusionary zoning is a tool that allows the City to require affordable housing units to be provided in new developments. Policies for inclusionary zoning are required to ensure the provision of affordable housing keeps pace with the growth of new market housing, supporting neighbourhoods across the City to provide housing options for a full range of incomes and households.

1. Inclusionary zoning will be used to increase the supply of affordable housing for low to moderate income households, continue to support a diverse range of housing supply and support the development of more inclusive and equitable communities.

2. Zoning by-laws for inclusionary zoning, pursuant to the *Planning Act* and in accordance with the policies of this Plan, may be enacted to require affordable housing to be included in development or redevelopment located within an IZ Market Area as shown on Map 37.

3. Despite Policy 2, Zoning by-laws for Inclusionary Zoning will not apply to:

- a) development or redevelopment containing less than 100 new residential units and less than 8,000 square metres of new residential gross floor area; or
- b) the portions of a development or redevelopment containing residential care homes, retirement homes, nursing homes or student residences.

4. At the discretion of the City, some or all of the affordable housing requirement may be provided on an alternate site subject to the following:

- a) the offsite affordable housing units provide for an improved housing outcome;
- b) the offsite affordable housing units shall be ready and available for occupancy on a timely basis commensurate with completion of the residential units in the proposed development or redevelopment; and
- c) the offsite affordable housing units shall be located in proximity to the proposed development or redevelopment. The requirements for proximity will be met if the offsite development is located within the same market area category identified on Map 37.

5. Any replacement affordable or mid-range rental units or dwelling rooms required under Policy 3.2.1.6 or Policy 3.2.1.11 of this Plan shall not contribute to the affordable housing requirements required in Policy 3.2.1.13 of this Plan.

6. Financial incentives will not be provided by the City to meet the requirements set out in Policy 3.2.1.13 of this Plan. Incentives may be considered where a development or redevelopment proposes to exceed the requirements set out in Policy 3.2.1.13 of this Plan.

7. If the provisions of Policy 3.2.1.13 apply to a development or redevelopment, the development or redevelopment will not be subject to the requirements of Policy 3.2.1.9.

8. If a purpose-built rental development is proposed and an application for approval of a Description in accordance with the Condominium Act is made at a later date, the application will not be approved unless the requirements of Policy 3.2.1.13 of the Plan are met.

9. For development or redevelopment subject to an Inclusionary Zoning By-law, one or more agreements that are registered on title to the lands shall be entered into with the City securing:

- a) the requirements of Policy 3.2.1.13 of this Plan and this Section;
- b) requirements for timely delivery of the affordable units, and if applicable, any phasing of such affordable units, in the development or redevelopment;
- c) requirements for adjustments to the required amount of affordable housing to meet Policy 3.2.1.13 a), b) or c), should a proposed purpose-built rental development convert to condominium or a proposed condominium change to purpose-built rental, or should proposed affordable rental housing be secured as affordable ownership housing;
- d) requirements for ensuring affordable units are provided to eligible households;
- e) requirements for ongoing administration, reporting and monitoring of the affordable housing units over the 99 year affordability period;
- f) an approach for determining the maximum resale price of an affordable ownership unit within the 99 year affordability period based on Consumer Price Index increases plus applicable administration fees;
- g) that the City would receive no more than 20% of the net proceeds of the sale of an affordable ownership unit sold during the 99 year affordability period, equivalent to no more than 2% of the sale price, for administration fees, with net proceeds determined based on the difference between the purchase price and the resale price of the affordable ownership unit; and
- h) that the City would receive 50% of the net proceeds of the first sale of an affordable ownership unit at market price after the 99 year affordability period, to be reinvested in affordable housing, with net proceeds determined based on the

difference between the purchase price and the resale price of the affordable ownership unit, less any legal, administration or real estate commission fees."
