Subject: Fiddling about with Laneway Suites bylaw amendments :: REFERENCE: PH29 Changing Lanes - Laneway Suite
Date: November 6, 2021 12:42:15 PM

Please stop crushing nature out of our built environment- NO INCREASE beyond 2 storeys is necessary and NO REDUCTION TO SOFT LANDSCAPING can possibly be a good idea in a city losing tree cover at an ever increasing pace. We are creating paved deserts with no place for rain absorption. Piping it to treatment plants is an asinine cost for a bit more built form inspired mostly by GREED..

Please register our firm complaint against these ill advised recommendations.
