Sports

Ditch the mouse and get with your Active Side

Well-structured sports programs can provide children and adults with opportunities to participate in physical activity that has immediate and long-term benefits. Higher fitness levels, better health, and enjoyable social interaction are a few of the fringe benefits of participating in sports activities. Fun and fitness go together, whether it's basketball, golf, hockey, gymnastics, volleyball, or badminton that appeals to you. Get out and get active!

Please note that some programs may have an additional fee for materials or supplies. Contact the program location for specific details.

Unless otherwise noted in the charts, all sports programs and activities are co-ed.

Adult Athletic Memberships

This membership is great for those who want to play drop-in basketball, badminton, volleyball or other drop-in sports on a regular basis. These are listed in the program charts as "Pass Option".

They also participate in activities that build general strength and, health and wellness strategies such as healthy eating and coping with stress.
