

A low-angle, upward-looking photograph of several tall buildings against a clear blue sky. The buildings are arranged in a way that creates a sense of height and scale. The top-left building is a light-colored, multi-story structure with a grid of windows. The bottom-left building is a taller, more modern structure with a similar grid pattern. The right side of the image shows a building under construction, with visible scaffolding and a partially completed facade. The overall composition is dynamic and emphasizes the verticality of the architecture.

Appendix 5

Tall Buildings

Prototype

The following diagram is a conceptual prototype of a tall building adhering to the Regulations proposed in this report. A selection of the Regulations dealing with building dimensions are shown for illustrative purposes only. The diagram should be read in conjunction with all the Regulations.
