7:15 p.m. - Presentation

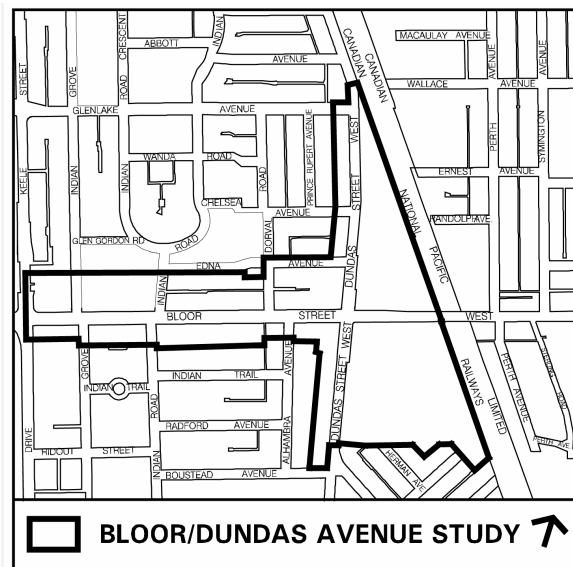

**High Park Baptist Church – Lower Auditorium

City staff and the City's consultants have been working with the community to create a framework for new development and to identify needed service, transportation and streetscape improvements for the Bloor Dundas 'Avenue' Study area (see map).

In response to feedback at the November 18, 2008 community meeting, this meeting will provide additional information on land uses and related matters, and examples of built form scenarios for sites and sub-areas.

The meeting will start with an open house at 6:30 p.m. providing an opportunity to review display boards, ask questions and provide feedback. A presentation will follow at 7:15 p.m. To facilitate community feedback, material will be available on the Bloor Dundas 'Avenue' Study's web page - www.toronto.ca/planning/bloordundas.htm - on Wednesday, January 21.

Please join us on Monday, January 26. Your input will help to improve and refine the draft framework for the study area. The draft framework will result in a final study report, and subsequent new urban design and zoning by-law provisions for the Bloor Dundas 'Avenue' Study area.
