

## Highland Creek Village Area Study

The City of Toronto is undertaking an Area Study of the area known as Highland Creek Village, which is generally located along Old Kingston Road between Lawson Road and Military Trail. The proposed boundary of the study area is indicated on the map below.

### Purpose

The purpose of this Area Study is to establish recommendations that include area specific Official Plan policies, zone provisions, urban design guidelines, and area specific planning tools to guide the area's growth.

## **Working Group**

The Area Study will be undertaken by City Staff with assistance from a volunteer Working Group composed of Highland Creek residents and business owners. Members of the working group will be responsible for attending approximately five (5) weekday evening meetings throughout the course of the study.

The role of the working group is to advise City Planning staff of issues and opportunities within the study area and to provide feedback throughout the duration of the study.

If you would like participate in this working group, would like further information about the study, or to provide your comments, please contact:
