
Background

INFRASTRUCTURE STIMULUS FUND IN TORONTO

On September 11, 2009, the Government of Canada and City of Toronto announced a total combined Canada-Toronto investment of more than a half-billion dollars for more than 500 community infrastructure projects identified as priorities for the City that will create jobs and help build a stronger community.

Through Canada's Economic Action Plan, the federal government has established a \$4-billion Infrastructure Stimulus Fund that provides funding to provincial, territorial and municipal construction-ready infrastructure rehabilitation projects.

In addition to this investment for short-term infrastructure renewal, the Government of Canada has provided significant support to the City of Toronto for longer-term infrastructure projects, including:

- Up to a maximum of \$133 million, toward the revitalization of Union Station;
- Up to a maximum of \$333 million for the new Sheppard East Light Rail Transit Line;
- \$350 million for the Toronto Transit Commission (TTC) modernization and expansion of transit services;
- \$385 million for the GO Rail and Bus Transit networks in the extended GTA; and
- \$81,446,000 from the Gas Tax Fund flowed to the city of Toronto in 2008-09 for infrastructure projects. In combination with the funds flowed in 2007-2008, the city of Toronto has received \$146,603,000 from the federal Gas Tax Fund in the last two years

Please see the attached table for a list of projects in Toronto to be funded under the Infrastructure Stimulus Fund.

		Cost	Federal share	Municipal share	Other share
Cultural Infrastructure					
Yonge-Dundas Square Permanent Storage Facility	Cultural Infrastructure				
Todmorden Mills Heritage Museum and Arts Centre	Cultural Infrastructure				
Subtotal		\$1,470,000	\$489,667	\$980,333	\$0
