SUBMISSIONS | PUBLIC BUILDINGS IN CONTEXT

Project Title

St. Timothy Catholic Elementary School

Address

25 Rochelle Crescent

St. Timothy's is a Kindergarten to Grade 8 Catholic **School**, replacing an aging, outdated 1964 facility.

The new building style is strong and forceful in its delineation, while being soft and gentle with its curved walls, skylights and semicircular two storey spaces, incorporating primary colours, soft hues, textures, carpet, porcelain tile and concrete in a series of classrooms linked to the outdoors. Great care was taken to produce **energy efficient** solutions in lighting, heating controls and wall construction.

Connecting a school to the **community** is a critical part of education. The public will use the outdoor track, library, gym and auditorium designed as a **community** hub for adults as well as children.

We have provided an indoor/outdoor experience in all classrooms, creating spaces of varying architectural character, using **natural** and normal building materials. This new **environment** teaches students about space, colour, shape, culture and an increased desire for learning.
