SUBMISSIONS | SMALL OPEN SPACES

Project Title

SickKids Park

Address

555 University Avenue

Toronto SickKids is Canada's most research-intensive hospital and the largest centre dedicated to improving children's health in the country. SickKids improves the health of children by integrating care, research and teaching.

SickKids provides complex and specialized care by creating scientific and clinical advancements, sharing knowledge and expertise and championing the development of an accessible, comprehensive and sustainable child health system.

Designers of the Park sought to bridge SickKids' goals, mission and guiding principles with landscape architecture. To do this the design team created a multi-functional space that is 100% accessible, provides a tranquil, therapeutic setting and offers useable space for children's activities and education.
