

Resolution #1, Guiding Principal #5

from the Mediation Agreement, City of Toronto MTP [ABTP] Environmental Assessment
April 16, 1999

5. The principle that the area of the MTP Site should be reserved primarily for activities and developments that are directly related to its primary purpose, to maximize the efficiency of the MTP and to minimize pressures for lakefilling. Activities or developments that are not directly related to the primary purpose of the MTP may be permitted at the MTP Site only if:
- the MTP Neighbourhood Liaison Committee has been fully informed and consulted;
 - a comprehensive analysis of alternative locations has been conducted, having regard to the definition of the environment from the Environmental Assessment Act, and the MTP Site has been determined to be the preferred alternative;
 - the activity or development can be located at the MTP Site, without compromising the ability of the Site to accommodate future requirements for sanitary sewage treatment and without increasing pressures for lakefilling;
 - the activity or development will not compromise the beneficial use of biosolids at the MTP;
 - the approved Site Plan either contemplates the activity or development or can be amended to provide for it without compromising its integrity;
 - the activity or development will not cause any adverse impact on the quality of air, water or land in the vicinity of the MTP;
 - the activity or development will not cause any adverse impact on the quality of the final effluent from the MTP or on near shore water quality;
 - the activity or development will not increase off site nuisance impacts on residential, recreational or other sensitive land uses in the vicinity; and
 - the activity or development will not cause an adverse visual impact from any off site location.

Resolution #9, NLC Terms of Reference

from the Mediation Agreement, City of Toronto MTP [ABTP] Environmental Assessment
April 16, 1999

- 1.1 The mandate of the MTP NLC shall be to act as a public liaison committee that will:
- ...
 - 1.1.2 develop criteria for evaluating proposed uses or developments on the MTP Site;
 - ...
