

**Six Points Interchange Reconfiguration
Class Environmental Assessment
June 20, 2006 Public Meeting #2
Input from Comment Sheets
Options and Criteria**

At the June 2006 public meeting, comment sheets were handed out to all who attended. The comment sheet asked for feedback on the four “short listed” options listed below. 54 comment sheets and/or letters and e-mails were submitted that clearly indicated a preferred option. Two individuals submitted comment sheets that listed two preferred options and two individuals indicated a “second choice” along with their preferred option.

This was not a formal survey and the numbers should only be taken as an indication of what the public’s preferred option may be (based on the comments received).

Options Presented on June 20, 2006

1. Do Nothing
2. Modified Existing – Improved Westwood Lands Access
3. Fully At-Grade Dundas Street Loop
4. Dundas Street Underpass

Option	Preferred	2nd Choice
