

St. Clair Avenue West Transit Improvements Project

Streetcar Service Resumes Between Lansdowne Avenue and Gunns Loop

Starting June 30, 2010

On Wednesday, June 30, 2010, streetcar service will resume to the community and local businesses on St. Clair Avenue West between Lansdowne Avenue and Gunns loop.

With the return of streetcars along this section of St. Clair Avenue West, the entire 512 St. Clair route will be served by streetcars travelling on the new right-of-way from St. Clair Station at Yonge Street to the Gunns loop at Gunns Road.

On Tuesday, June 29th safety and operational tests will be conducted using a “test streetcar”, which will operate along this section of the new right-of-way. The test streetcar will not be picking up customers during its operation.

The design and construction techniques used to build the new streetcar right-of-way track infrastructure on St. Clair Avenue West will contribute to a measurable improvement to the long-term performance of the track and concrete pavement, as well as providing a smoother and quieter ride for streetcar passengers.

The TTC would like to thank area residents, businesses and its customers for their patience and support during the various stages of the project.

TTC route and scheduling information is available by calling the TTC Information Line at (416) 393-4636 or visit www.ttc.ca
