

St. Clair Avenue West Transit Improvements Project McRoberts Avenue to Old Weston Road

Construction of 300mm Watermain

Expected Start Date: December, 1st, 2008*

Expected Completion Date: early April 2009* *Timeline is subject to change due to unforeseen events.
Content is accurate and current at time of printing.

The City's Capital Construction Programme on St. Clair Avenue West includes the replacement of 300 mm watermain, fire hydrants and sub-standard water services from Old Weston Rd to McRoberts Avenue. At the request of the St. Clair Gardens BIA, the work will start at McRoberts and proceed west. The purpose of the work is to replace the aging watermain and to upgrade the water services. The watermain work is being coordinated in advance of the final phase of streetcar track reconstruction. Hydro wires in this section will be undergrounded, preparatory hydro work is already underway.

Construction Details

- Watermain construction is scheduled to begin on December 1st, 2008;
- Weather permitting, the watermain work will be completed at the end of March, 2009
- Watermain work is scheduled to stop from December 20 to early January, 2009.
- Minimum of one lane of traffic in each direction will be maintained at all times;
- Safe pedestrian access will be maintained at all times;
- Driveway and lane way access will be maintained at all times;
- Access and storage for trucks and heavy equipment will be managed in such a way so there is no obstruction to private driveways and sidewalks.

Parking Restrictions and General Information

- On street parking will be restricted in the work zones during the construction.
- Deliveries (except for regular mail service) will be restricted for a short period of time when construction is in front of specific businesses. Construction inspectors will be on-site and will make efforts to work with you to coordinate deliveries. However, at times, alternative plans for deliveries will be necessary. Based on your concern, consultation staff can put you in touch with the correct staff person. **Please see contact information below.**
- Owners of properties who plan to have their water services upgraded should consider making an application to Water and Wastewater Services (416-392-7673) to have the work carried out under the watermain construction contract.

Transit

TTC bus service will be maintained in both directions through the construction areas. At times, transit stops may be temporarily moved to a nearby alternate location to accommodate the watermain work. Every effort will be made to complete this essential work as quickly as possible and with the least inconvenience to the community. Your assistance and co-operation during the construction period is crucial and appreciated

Work Hours

Normal working hours are from 7 a.m. to 7 p.m., Monday to Friday. However, the Contractor is permitted to work within the City's bylaw requirements and may wish to work until 11 p.m. and/or work on Saturdays. The Contractor may also wish to work over nights at intersections to reduce traffic disruption for the community.
