

1989: BLUE BOX 2003: GREEN BIN

Scarborough, say hello to the next step in waste reduction. The Green Bin Program is here.

And just like the Blue Box, it's a big step in helping Toronto to reduce waste. Here's how it works. Simply put all your organic waste inside your green bin and bring it to curbside for weekly pickup. We'll process it into high-quality compost. The few

items remaining go in your regular garbage, which we'll now pick up every two weeks. Recycling collection is also every other week. Thanks for helping us to reduce waste and the number of trucks going to Michigan landfill.

To learn more call 416-338-2010 or visit www.toronto.ca/greenbin
