

-----  
*How much is  
your toilet costing you?*  
-----

A typical toilet can guzzle up to 20 litres of water in a single flush, but an ultra low-flush toilet makes do with 6 litres – which can really lower your water bill. In fact, an ultra low-flush toilet pays for itself in about a year. And as an added bonus, the City of Toronto will give you a **\$60 - \$75** rebate on the purchase. So don't get soaked by your toilet. Call 416-392-7000 or visit [www.toronto.ca/water](http://www.toronto.ca/water).
