Our commitment is to the healthy development of your child.

In our programs we:
- Encourage friendships
- Support fun and learning through play
- Promote physical activity and skill development
- Foster safe and inclusive experiences
- Have trained and qualified leaders
- Seek feedback

We promote and support healthy child development.

Staff and program participants are consulted regularly and involved in the planning and delivery of programs. Our goal is to deliver high quality programs and participant experiences that provide the opportunity to play, participate, make friends, and master a skill under the guidance of a caring adult. This is our HIGH FIVE® Commitment to Children.

Skill based programs are further designed to reinforce progressive skill development. Every child is encouraged to master new skills and progress through the program at their own pace.
