

IN THE MATTER OF THE TORONTO EXTERNAL CONTRACTS INQUIRY

SUPPLEMENTARY AFFIDAVIT OF MARGO BRUNNING

I, Margo Brunning, of the City of Toronto, in the Province of Ontario, MAKE OATH AND SAY:

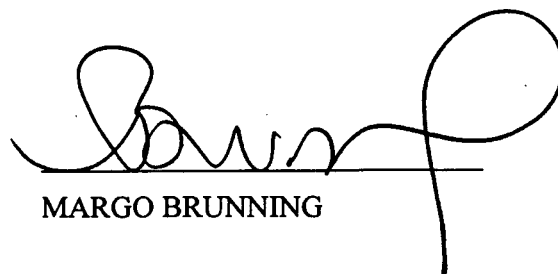

1. I have reviewed the affidavit of Andy Lok, sworn on December 3, 2004, and in particular paragraphs 66 to 70. I have the following comments to make regarding these paragraphs.
2. Each of the instances of TXM2000 required a different server, and a server was delivered to the North York Civic Centre to be used for North York's instance of TXM2000.
3. This server, however, was not used for TXM2000, but rather was reconfigured to run some other software. I am unable to recall the specific purpose for which the server was being used. I believe that ultimately the server was reconfigured and used by the Parking Tag operations. I believe this was done in 1999 or 2000.
4. I do not recall having a meeting with Andy Lok and Michael Saunders to discuss the use of North York's TXM2000 server.

5. I did not tell Andy Lok that the TXM2000 server was being used for a purpose other than TXM2000, nor did I tell him that the North York server was an exception.

Because of my limited IT knowledge, any comments to this effect would have come from Michael Saunders.
