TORONTO STAFF REPORT

May 17, 2001

To: Economic Development and Parks Committee

From: Joe Halstead, Commissioner Economic Development, Culture and Tourism

Subject: 2001 Minor Recreation, Major Recreation and Lawn Bowling Grants Program Recommendations

All Wards

Purpose:

This report presents the recommended grant allocations for 153 community organizations which have applied for municipal support in the Minor Recreation, Major Recreation and Lawn Bowling Grants Programs.

Financial Implications and Impact Statement:

Council approved an amount of $1,256,650 in the 2001 Operating Budget for the Recreation Grants Program within the Consolidated Grants Budget. Of this amount, $26,394 is set aside for appeals and the remaining $1,230,256 has been allocated.

The Chief Financial Officer and Treasurer has reviewed this report and concurs with the financial impact statement.

Recommendations:

It is recommended that:

(1) Minor Recreation Grant allocations totalling $365,040 to 122 community organizations listed in Attachment No. 1 and described in Attachment No. 2 be approved;

(2) Major Recreation Grant allocations totalling $839,604 to 22 community organizations listed in Attachment No. 3 and described in Attachment No. 4, be approved;

(3) Lawn Bowling Grant allocations totalling $25,612 to 9 lawn bowling clubs listed in Attachment No. 5 and described in the body of this report, be approved;

(4) $4,500 of the $12,000 recommended to the Community Association for Riding for the Disabled (CARD) be requisitioned from the 2001 Community Services Grants Program Budget;

(5) $10,000 of the $10,000 recommended to Crescent Town Community Association be requisitioned from the 2001 Community Services Grants Program Budget;

(6) any applicants wishing to appeal their recommendations be allowed to make deputations at the Economic Development and Parks Committee meeting on June 11th, 2001; and

(7) the appropriate City Officials be authorized and directed to take the necessary action to give effect thereto.

Background:

The City of Toronto provides support to the not-for-profit sector through grants programs under the general authority for making grants in Section 113 of the Municipal Act. Grants are used as a strategic tool to move the City of Toronto closer towards its social, economic and cultural goals and reduce the onus on the City to provide all services directly. Some organizations are better equipped at serving particular communities or ethnic groups and have strong volunteer resources.

The Recreation Grants Program awards grants to community organizations that provide a leisure or sports activity to help respond effectively to the needs of residents and to improve the quality of life in the City of Toronto. Recreation Grants can be used for funding specific time limited projects, seed funding for new organizations or continuing the operation of an established organization. The Recreation Grants Program is intended to supplement existing Parks and Recreation programming. The Recreation Grants Program's eligibility requirements and criteria have been strictly adhered to in accordance with Council approved policy.

Comments:

The total approved budget for the Recreation Grants Program is $1,256,650, of which $365,040 has been allocated for Minor Recreation, $839,604 for Major Recreation, $25,612 for Lawn Bowling and the remaining $26,394 has been set aside for appeals. No community organizations have requested advance payments from the Recreation Grants Program as of this date.

For 2001, 153 community organizations have applied for Recreation Grants. For Minor Recreation Grants, 122 applications were received, requesting $1,240,769.27. There are 4 more applications than received last year and 38 are new. For Major Recreation Grants, 22

applications were received, requesting $1,077,065. This is 1 more application than was received last year and it is new. For Lawn Bowling Grants, 9 applications were received, requesting $35,769. This is 1 less application than was received last year. Overall, there are 39 new applications, representing 25% of the 153 total applications received.

More than 300 applications were mailed or e-mailed to potential applicants. Six Grants Fairs were held across the City in November 2000 and staff were available to answer questions on the Recreation Grants Program, hand out information and record the necessary information to mail out applications to interested organizations. The deadline to receive applications was 12:00 noon on February 15, 2001. Of the 153 applications received, 10 were received late.

For the 2001 Recreation Grants Program, staff were consulted to help identify priority areas to allocate funding. The three priority areas are: children and youth, environmental stewardship and high needs. Eligibility requirements and allocation priorities were strictly adhered to.

To help with the administration of the Recreation Grants Program, a team was formed with representation from the four operating districts and Central Services. All management staff, including Supervisors of Recreation and Facilities, were sent a complete list of the organizations that applied for 2001 grants. Comments were requested from staff.

An initial review of all applications was conducted by staff for completeness and additional information was requested where necessary. During the review process, organizations were contacted for further information when required or to clarify their submission. All assessments were made in accordance with guidelines, eligibility requirements and the City of Toronto's Grants Policy. All organizations were treated equitably and fairly.

Allocations:

Attachment No. 1 contains a summary of the allocations for the Minor Recreation Grants Program.

Attachment No. 2 contains a one-page summary for each agency that applied for a 2001 Minor Recreation Grant.

Attachment No. 3 contains a summary of the allocations for the Major Recreation Grants Program.

Attachment No. 4 contains a one-page summary for each agency that applied for a 2001 Major Recreation Grant.

Attachment No. 5 contains a summary of the allocations for the Lawn Bowling Grants Program.

The Parks and Recreation Division received 9 applications for Lawn Bowling Grants. This is the second year that lawn bowling clubs have had to submit a formal application to receive funding from the City of Toronto. Seniors, who sit on the Boards of Directors, and who also operate the clubs, have completed the majority of the applications. All clubs are volunteer-based. Staff

appreciate the work and effort that these organizations and its members have put into completing the applications.

Revenues for lawn bowling clubs are generated from membership fees, fundraising, donations and the Lawn Bowling Grants Program. Lawn Bowling Grants are used to assist with the operation of the clubs and more specifically, to help offset greens and equipment maintenance costs.

It is recommended that 8 of the 9 Lawn Bowling Grant applicants receive funding, totalling $25,612. James Gardens Lawn Bowling Club will not receive funding in 2001 because an agreement has been reached with the Club and the Parks and Recreation Division. The club pays rent to the City of Toronto, Parks and Recreation Division, and the amount of their rent has been decreased by an amount equal to what the Club would have normally received through the Recreation Grants Program.

It is recommended that 5 lawn bowling clubs receive the same funding as last year. It is also recommended that 1 club receive less funding than last year, as they have requested less funding.

It is recommended that 2 clubs receive an increase in funding. Humberside Lawn Bowling Club had an operating deficit of $1,031 in 2000. Since a grant cannot exceed 49% of total revenue, an increase of $125 will contribute to the overall revenue of the club and allow the club to be more financially viable. It is recommended that North Toronto Lawn Bowling Club receive $5,225, of which, $3,525 is to be used for greens and equipment maintenance. The remaining $1,700 will be used to add a third sport, petanque, to their club. The funds will be used for program expenses and promoting the sport. The $1,700 is a one-time only grant and will not be recommended in future years.

Appeals:

An amount of $26,394 has been set aside for appeals in the Minor and Major Recreation Grants Programs. Organizations have been informed in writing of the recommendations and the appeals process. Any applicant wishing to make an appeal, may call the Clerk's Department by 12 noon on June 7th, 2001 to request the opportunity to make a deputation to the Economic Development and Parks Committee on Monday June 11th, 2001.

Conclusions:

The Recreation Grants Program allows organizations to better serve their community by providing recreational programming and activities that improve the quality of life of residents. It allows communities to partner with the Parks and Recreation Division to provide necessary and important programming to sustain social, cultural and economic development.

The allocation recommendations in this report were based on a review of the applications received by the Parks and Recreation Division. The review was carried out in accordance with the City of Toronto's Grants Policy as adopted by Council.
