SCHEDULE A

REASONS FOR DESIGNATION (Statement of Significance) 601 Sherbourne Street

Description

The property at 601 Sherbourne Street is worthy of designation under Part IV, Section 29 of the Ontario Heritage Act for its cultural heritage value, and meets the criteria for municipal designation prescribed by the Province of Ontario under the categories of design and contextual value. Located on the southeast corner of Sherbourne Street and Howard Street, the Thomas Cruttenden Building (1902) is a three-storey commercial building.

Statement of Cultural Heritage Value

Contextually, the Thomas Cruttenden Building is an integral part of the collection of surviving heritage buildings dating to the late 19th and early 20th centuries that characterizes the Howard Street neighbourhood as it originated and evolved as a desirable upscale residential enclave southeast of Sherbourne Street and Bloor Street East. The property is visually and historically linked to its neighbourhood surroundings, as it represents the post-1900 evolution of the historical enclave and stands as a highly visible commercial building anchoring the west entrance to Howard Street.

While the Thomas Cruttenden Building typifies the commercial buildings that appeared in the early 20th century when the Edwardian Classical style was favoured for domestic and commercial architecture, the building is distinguished by its craftsmanship with the classical roof detailing, distinctive rounded corner, and the structure’s scale and placement near the Sherbourne and Howard intersection.

Heritage Attributes

The heritage attributes of the property at 601 Sherbourne Street are:

- The commercial building at the southeast corner of Sherbourne Street and Howard Street
- The scale, form and massing of the three-storey plan that is shaped to reflect the angle formed by the intersection of Sherbourne Street with Howard Street
- The red brick cladding and the trim that includes brick and wood
- The extended cornice with brackets that marks the roofline
- The distinctive rounded northwest corner
- The cornice dividing the first-floor storefront from the upper stories (the storefronts have been altered)
- The second- and third-storey fenestration, where the brick piers that organize segmental-arched window openings with stone lintels and sills are highlighted with corbelled brickwork
- The rear (east) three-storey wing, with complementary cladding and detailing
- The position of the building on the corner lot
